5 ways they're trying to trick you into taking the Covid "vaccine"

The increasingly desperate ploys are all in play, and if you're not paying attention you might just fall for them

Kit Knightly

Sergiy Maidukov

The vaccine rollout is in full flow now, the daily tickers have had “people vaccinated” added to their red counters, and the improbably large number grows more improbably large every day.

The sale of the century is very much on. The powers that be want every single person to be vaccinated, and they're pulling out all the stops to make sure it happens.

Here are the five main ways the establishment is trying to manufacture your consent.

1. BRIBERY

It's being reported that everyone getting vaccinated is the only way to get “back to normal”.

Don't you want to go to the pub again? Or the gym? Or see granny? Or hug people?

Well, just take the shot. Take the shot and all this lockdown and social distancing economic collapse and mounting poverty, it will all just go away.

It's a common refrain, one which rather clashes with “new normal” we've been hearing about for a over year.

In fact, it looks like “back to normal” may come with a qualifying asterisk. For example embattled New York governor Andrew Cuomo has said vaccines will help the state “get back to normal*”...

...where “normal” involves an “**Excelsior Pass**”.

You don't need me to explain the complexities of this technique. It's simple coercion. *“Do as we say, and you'll get a treat.”*

Important to remember: “Getting back to normal” is a lie. As much as people repeat the mantra in soundbites and social media posts, the “**experts**” are clearer – many have said we will **NEVER be going back to normal**, and others have said we need to maintain anti-Covid measures until **at least 2022**. The “vaccine” itself does not even claim to limit transmission, even those vaccinated are still being ordered to follow the restrictions.

2. CELEBRITY ENDORSEMENTS

One of the oldest and most widely used marketing gimmicks. Partly because **it works**, but mostly because it's cheap and easy: Simply find a bunch of tools and put them to work.

The NHS was not shy about this approach, claiming they were planning to enlist “**sensible celebrities**” who are “known and loved” to combat anti-vax sentiment.

For example, Patrick Stewart:

How do we say thank you to the health workers and scientists for their sacrifice and service? Receive the vaccine as soon as one can to lessen their load and keep wearing a mask to protect fellow citizens. In my

80th year, I am grateful and hopeful for better days ahead.

pic.twitter.com/emGDlnYL2E

— Patrick Stewart (@SirPatStew) **January 22, 2021**

Or Elton John and Michael Caine:

Sir Elton John and Sir Michael Caine encourage people to get vaccina...

Or even Her Majesty:

'It was very quick. It didn't hurt at all.'

*The Queen shares her experience of getting the **#COVIDVaccine** with England's NHS Vaccine Deployment Lead Dr **@Emily_JR_Lawson**, and encourages those who might be hesitant to get theirs when invited.  **@RoyalFamily** pic.twitter.com/MsR7uqSmK2*

— NHS England and NHS Improvement (@NHSEngland) **February 25, 2021**

Important to remember: Celebrities – especially actors and TV personalities – are simply paid to repeat lines. Even if their intentions are correct, there's no reason to assume any of them have any understanding of what they're talking about. And none of these people has anything to lose should you or a loved one suffer any harm from taking an untested vaccine.

*

3. FORCED "SCARCITY"

For weeks now we've been seeing headlines about "**dwindling stock**" of vaccines. How **people in Europe** are desperate for doses or **some states** are being prioritised over others. It goes **on** and **on** and **on**.

Everyone who has ever been inside a store knows this trick. "While stocks last", "limited time offer", or a thousand other variants designed to create the idea that if you don't acquire product X *right now*, you will miss your chance.

A corollary of this is fake exclusivity, the way credit card companies tell absolutely everyone they call that they “qualified for our exclusive introductory rate”.

By creating the idea that the vaccine is hard to come by, they also create the idea that anyone who gets their hands on a dose is fortunate, or somehow a de facto member of some special club.

Important to remember: It's all total nonsense. They are not in any danger of “running out” of vaccines. And even if they are, scarcity is a marketing ploy, not an argument.

*

4. FAKE “POPULARITY”

You can't underestimate the idea of peer pressure when it comes to marketing, one of the oldest tricks in the book is culturing popularity through the idea that popularity already exists. It's why people buy likes and views on youtube and concerts have seat fillers.

And it's why Matt Hancock was reported to have said this:

Incredible take up: Matt Hancock says 94% of Britons have taken a coronavirus vaccine or will do so when offered.

—Sebastian Payne (@SebastianEPayne) **March 1, 2021**

Is this true? No source is cited, so it's hard to say. It could be entirely made up, a lot of statistics are. Even if the figure is technically real, it's likely just from some opinion poll. And, as **Yes Minister** has taught us, polls are totally meaningless.

To quote (ironically enough) Peter Hitchens:

“*Opinion polls are a device for influencing public opinion, not a device for measuring it.*”

The UK is reporting that 1/3rd of the population has already had at least one dose of vaccine, a number which seems very high (it equates to roughly 250,000 vaccinations per day since the first shot was given on December 8th), this follows early reports that vaccine uptake was “**better than expected**”.

Even if that's the case – and the past year has proven there's never any reason to trust government figures – Hancock's “94%” seems very unlikely to have any bearing on reality, given the number of reports of **low uptake** – especially in poorer regions, amongst ethnic minorities, and **NHS workers**.

Important to remember: An opinion poll is no measure of reality, popularity is no measure of quality, and it is in the establishment's interest to make all dissenters feel they are in a tiny minority.

*

5. "RESISTANCE IS USELESS"

This is an interesting one. There's been a lot of talk about Vaccine Passports recently, and perhaps they will become a thing, but the vast majority of the public discourse is spreading the idea they are "inevitable".

Now, the idea of inevitability is a powerful tool. You can encourage it as a way of preparing the ground for a policy roll out, sure, but you can also use it to engender feelings of defeat in your opposition and thus gain their consent without force.

You can see this defeatist language taking hold in some hitherto staunch Covid sceptics.

Peter Hitchens recently announced he was being vaccinated, claiming he **was defeated and vaccine passports were inevitable**:

“ *I get the strong sense that any sort of travel, and plenty of other things, will be impossible if I don't have the necessary vaccine certificate.* ”

Just today, Lord Sumption essentially caved on the same exact issue in the very similar language:

Lord Sumption Capitulating to Vaccine Passports.

pic.twitter.com/oL4jkjYNFy

— WE GOT A PROBLEM (@problem_we) **March 4, 2021**

Desmond Swayne MP, another longtime Lockdown sceptic, also capitulated today:

*I've just had my jab: make sure you can get yours, so that we can all
get back to normal life* ***pic.twitter.com/moChCRpkTX***

— Desmond Swayne (@DesmondSwayne) **March 4, 2021**

“Get vaccinated now, because you’ll probably have to eventually” is the message, and it’s not hard to see the utility of it.

From a purely logistical point of view, making people *think* there are going to be vaccine passports is much, much easier (and cheaper) than actually introducing them.

As a follower said to us on twitter:

*I believe it is the next level of the psyop- make people believe they are
the minority when in fact the opposite is likely true but because the*

mind is beaten and manipulated more just 'tag' along for the ride

— S.G Truth (@patriotic1966) **March 4, 2021**

Will they eventually issue Vaccine Passports? Maybe.

Maybe all these tricks will fail and they'll be forced to use less carrot and more stick. But it seems equally possible that – for now at least – they're being dangled over people to encourage defeatism in those of us who are resisting, and thereby increase vaccine up take.

Important to remember: vaccine passports will only ever become “inevitable” once the vast majority of people have had the vaccine. If enough people refuse to take part, the program will never work.

*

So, there's the breakdown of all the broad marketing categories being used to sell this vaccine. But what's the final takeaway?

Honestly, not an un-positive one I would say. Because what all these strategies have in common is the increasingly hysterical air of desperation.

If vaccine take-up was really at 94%, there'd be no need to sell the vaccine so much. If they were really running out of vaccines, the papers wouldn't be advertising it, they'd be telling people not to panic.

They've publicly turned several notable anti-lockdown voices for this campaign, these are key cards they have played all at once. That's a

desperate move.

In short, there's good reason to think the resistance to the "new normal" is a lot more widespread than the establishment ever expected it to be.

The government is really scraping the barrel when reduced to using the Queen to help push the Frankenstein treatments on us. No one in their right mind would ever trust the Queen after Epstein and Saville. 10 years for showing a neighbour a false flag video in the New Zealand Mosque shooting, £10k fine for going on holiday, £10k fine for organising an event against Covid-19 and now this,

MEDICAL SHOCKER. Scientists at Sloan Kettering discover mRNA inactivates tumor-suppressing proteins, meaning it can promote cancer

There's a secret layer of information in your cells called messenger RNA, that's located between DNA and proteins, that serves as a critical link. Now, in a medical shocker to the whole world of vaccine philosophy, scientists at Sloan Kettering found that mRNA itself carries cancer CAUSING changes – changes that genetic tests don't even analyze, flying completely under the radar of oncologists across the globe. So now, it's time for independent laboratories that are not vaccine manufacturers (or hired by them) to run diagnostic testing on the Covid vaccine series and find out if these are cancer-driving inoculations that, once the series is complete, will cause cancer tumors in the vaccinated masses who have all rushed out to get the jab out of fear and propaganda influence. Welcome to the world of experimental and dirty vaccines known as mRNA "technology".

Previously unknown cancer driving messengers are hiding in RNA, not DNA

This mind-blowing discovery should be published on every medical news site, newspaper, television news broadcast and on the CDC website, but unless you are reading this article and use **DuckDuckGo** as your search engine, you probably wouldn't ever see it. That's because **Google is in on the fix**, with Big Pharma and the VIC – the vaccine industrial complex. So here's a more in-depth explanation of what we're looking at, for real, regarding mRNA and vaccines. The information carrying molecule, messenger RNA, can instruct

human cells ultimately in the same way as cancer drivers, playing a major role in causing cancer to thrive while inactivating natural tumor-suppressing proteins the human body creates to save you from cancer. This is the complete opposite of what the CDC and the vaccine manufactures are telling everyone right now about the Covid vaccines, and this is based on clinical research by molecular biologists at the Sloan Kettering Institute. Even sequencing the DNA in cancer cells doesn't reveal these changes, that's how sneaky the vaccines are. It's like a **Trojan horse** that tells your cells to allow these changes to be made, as if they were safe, but they're not. All assumptions being made about mRNA being 'safe' right now have been completely turned 180 degrees with this research. Consider this very carefully if you have not yet been vaccinated with mRNA technology, and you may want to 'lawyer-up' if you already got the jabs.

After your Covid vaccination, RNA is transported out of your cell's nucleus, and will no longer function properly as a cancer tumor suppressor Bill Gates and the Vaccine Industrial Complex are very sinister, as we all know, but to create vaccines that truncate (disable by cutting short) cancer tumor suppressors, and destroy the human body's ability to protect against cancer, well, that's just complete insanity. Truncated tumor-suppressor proteins are similar to the DNA mutations that cause cancer cells to mutate and multiply uncontrollably. Will America see cancer cases skyrocket over the next few years due to Covid vaccines? Only time will tell, but right now, science is revealing that it's likely. Pay close attention. Therefore, anyone who is scared to death of the Covid vaccines is pro-science rather than anti-science, because the science shows the mRNA technology is very dangerous, especially concerning proteins that fuel cancer tumors. Let's say that again: Science shows mRNA technology can fuel cancer tumor growth.

Substantial amount of people with blood cancer have the SAME inactivation of tumor-suppressor genes at the mRNA level Scientists also discovered that a substantial amount of people with blood cancer, a.k.a. chronic lymphocytic leukemia (CLL), have the same exact inactivation of tumor-suppressor genes at the mRNA level. In fact, the mRNA changes they detected could possibly account for the missing DNA mutations, and that spells out bad news for everyone who thinks the Covid vaccine series is "safe and effective." It's effective alright, at suppressing anti-cancer proteins, one might conclude. Even if just half (partial truncation) mRNA changes in human cells take place, it's enough to "completely override the function of the normal versions that are present," according to the Sloan Kettering team of scientists. These changes can also apply to 100 different genes at the same time, so the changes can add up quickly and cause horrific health repercussions. Of course, mainstream media will dismiss any connections made by these discoveries, but they're paid to regurgitate pharma talk, so that's not surprising at all. It is important to note that mRNA changes, according to researchers, are not limited to blood cancer, but have been linked to

acute lymphatic cancer and breast cancer. Could this mean we're looking at a new population control mechanism hidden in messenger RNA? About 20,000 people in the US develop "CLL" **chronic lymphocytic leukemia** each year. How many will quietly begin developing it now, and then have it suddenly "show up" five years from now? Symptoms include fatigue, enlarged lymph nodes, and night sweats. Did you get mRNA vaccinated and experience those symptoms already? Are those symptoms on the warning label – the vaccine insert? Did you read them? There's only one "treatment" offered right now for CLL by the Pharma Industrial Complex, and that's stem cell bone marrow transplantation. Oh, but it's only recommended if your CLL is "likely" to advance. Do your mRNA vaccines now qualify you as "likely" to advance with CLL? Tune your internet dial to **Vaccines.news** for updates on human challenge trials for people interested in suppressing genes that fight cancer. No wonder **Mark Zuckerberg** is scared to death about the Covid vaccine. **Sources for this article include: mskcc.org vaccines.news mskcc.org**

So assume that the end game by Jan'22 is that around half the pop has had at least 1 covid19 vax in most industrialized countries. What next?

If the rushed and reckless vax testing leads to significant problems among the vax'd pop, what happens then? I don't think any big country has approved the vax , all are giving vax shots under "emergency authorization.

Antibody Dependent Enhancement (ADE) is a known risk in mrna vaccines. To simplify ALOT, the immune systems reacts to a virus with two types of antibody: Binding and Neutralizing.

Binding antibodies mark the virus in the immune system's list of bad actors.

Neutralizing antibodies KILL the virus.

You need a good ratio of Binding to Neutralizing antibodies to defeat the virus. If you don't get adequate Neutralizing Antibodies, the vax has taught the body not to respond to the virus when it comes around again. This leads to ADE, where vaccinated people have much worse cases of the disease the second time around. ADE deaths among a pretty small group testing Dengue Fever vaccine led to cancelling the trail and further research. Same mrna vax technology.

I've not read any research where the ratio of Binding to Neutralizing antibodies was reported. In their rush to get an approved vax out the door, it seemed the only measurement was does the vax produce any antibody response – which is different than producing immunity to a wild virus.

Might explain why public health is insisting on maintaining masks/social distancing after vax. They may know the vax doesn't protect....

Big question is why is everyone pushing for mass vaccination? Feels a little like the secret deals among major powers in Europe that led to WWI after the Sarajevo assassination. The train's left the station and no one has the power or interest to stop it.

I was intrigued by your comment and so looked up the dengue vaccine – but that is NOT the mRNA type of vaccine. That was a more conventional type, and did indeed create ADE.

I'm not swayed by any of their false propaganda. VAccines are supposed to go through a five to seven year rigorous well documented testing regimen. This one has so far had maybe four months of "testing". Once it has been well proven as safe AND effective over a period of at least five years, perhaps I'll consider it. But, I've never yet taken any of the seasonal flu, shingles, measles, AIDS or any other vaccine. Nor have I ever gotten any of those diseases. I also take a regimen of daily dietary supplements, designed to strengthen my own immune system. December last I spent about eight hours tossed together in a smallish motorcar in very close company with friends returning from out of state by plane. Long relaxing evening in their home, as well. Next morning HE gets a call from the relatives they'd been with for two weeks, informing that one of them had tested positive for the virus that morning. My friend got tested, positive. I'd been with them, in close quarters, during his contagious period. He did develop mild symptoms, quickly recovered... I never got a hint of anything. BUT I make use of a range of supplements to strengthen my immune system.. Seems to work. Never gotten ANY of the flu shots, never gotten any of the flu either. I am in at least TWO categories considered HIGH RISK for getting the /Rona. I have not significantly changed any of my long standing "social patterns". I've just kept doing what I've always done. Got kicked out of two stores, refusing service, because I personally cannot wear the bloody thin, and they would not tolerate my presence without the requisite mug nappie. So I found and ordered my products online, less they had them in a few days, and no trauma from the fearmongers.

A friend of mine has been saying that the only hope for any of us is that if at some point over the next year, people start dying in great numbers from – for example – auto-immune diseases as a result of having been injected, then the oligarchs' puppets running the governments of the West might see their Corona operation collapse.

But I don't think that people dying in vast numbers as a result of taking the 'vaccines' would bother the globalist criminals running almost all Western governments: on the contrary, they would claim that the deaths were due to some new 'variant' – and would use the deaths to herd people to take yet another 'vaccine'.

Precisely right. They'll say it's just another form of the virus, and will never tell anyone that peoples' immune systems are deteriorating rapidly due to antibody dependent enhancement (ADE), pathogenic priming, and cytokine storms. And of course the majority of people are too uninformed/misinformed and blind to it all to do any of their own research, find their own sources of truth about these hideous, deadly jabs.

People will start dying in Large numbers next Winter. Not due to covid, but a avalanche of 'other' Respiratory diseases that haven't shown themselves for the past year or more including Flu.

This will be put down to a 'weakened' immune system caused by lock-down. (As predicted by the Governments own medical advisor on the #marr show this Morning). (There already it seems, now 'surreptitiously' preparing us for mass Deaths next Winter).

It will be interesting to see if their will be a correlation made between those who were Vaccinated and those who were not. I doubt any such correlation will see the light of Day though!

NO COMMIES, NO FIGHT

The author, however, omits one of the most important factors used to trick the populations of the world. Indeed, Trade Unions and political parties, especially those on the left, but also the ones on the right (so called populist), have, even actively, refused to exercise a critical response and defence of their followers and sympathisers, let alone of the whole population.

These situation of total defencelessness, is only possible because there are no mass and organised communist parties that can take the war to the class enemy.

Not necessarily. Living in different places and regimes, is no guarantee of understanding what is going on. The argument of 'presence' (or life experience) is very weak, as you might not be experiencing what it has to be experienced to understand, you might already be biased, you might not understand the context or, since you cannot be in all places at once, you might not have been in certain places that could explain more or differently. Many other people could have similar experiences, and yet say the opposite of what you are saying. That is a common occurrence in all countries. That is why, among other things, there are different parties and groups. In the same way, writing books or publishing research, does not mean that they are right or say sensible things. For instance, it is well known that most research in universities and academia, is useless pulp or says what those who pay it and fund it want to hear. In a manipulated world, everything is suspect.

There are those of us who argue that the Stalinist parody of communism was in fact a form of fascism, a view firmly reinforced in my mind as one who spent a year as a student in mid-1980's so-called communist Poland where the organized working class was fighting this very system (and had been doing sporadically since 1956 when for a short time a strike briefly paralyzed the city of Poznan and a workers' committee took over the city), something that is impossible in Marxist terms if it really was socialism or communism.

Oh indeed. That is precisely what the second article points out. And, IMO, this has little to do with communism (though it would be easier to properly

choreograph such an operation in a more 'orderly' society). It's about the interests of nations, whatever their internal political system. And the Chinese have some scores to settle.

Personally, I would prefer the emphasis to be on the fraud, but I suppose it's easier to blame someone else's communism.

The agenda of Bill Gates and his puppet governments was all along, to inject everyone with their gene-altering "vaccines".

But they needed a pretext to do so.

So, five years ago, Fauci sent \$3.5 million to the Wuhan lab to develop a 'gain of function' capability for the bat Corona virus, so that it could pass through the cell walls of humans, and infect them.

The team at the Wuhan lab even documented their progress in the following three years in publicly published reports!

And then, a year ago, the virus was released – and Bill Gates and all of the governments have got the pandemic they wanted – which allows them the perfect excuse not only to force (that is coming) everyone to be injected with the 'vaccines' – but to deliberately trash the economies with lockdowns, so as to provide the excuse for the fascist Great Reset about to be unleashed.

Of course this has spectacularly back-fired and the great reset is the great reset of the mass of humanity losing all trust in the MSM, 'social' media, medical establishments, political institutions and the such like.

The Great Reset is us.

Everything to the contrary is simply inexpensive propaganda propagated through waffling word warriors (worriers).

Maybe 50% of us. And only 25% distrust Fauci enough to defy his medical advice. Still more resistance than the bad guys planned on.

Hence the hysterical calls for imprisoning or killing by drones those who disagree. They didn't plan on being discovered or called out this early.

The media is frightened and desperate to carry out the Plan after the elites promised them a piece of the action. But they know how angry many are and may fear attacks on their stations. (Projection on the villains' part.)

What'll happen eventually is that even though they can't force anyone to take the vaccine, they CAN herd everyone who doesn't take the vaccine, and corral them away from the general populace (you know...to keep everyone "safe"). The U.S. and Canada (and the UK, too, I'd wager) already have hundreds set up for just this scenario. I'd say start packing your bug out bag now...

What is absolutely amazing – and utterly depressing – is that people actually BELIEVE these 'opinion polls' that are fed to the sheep every day!

The mass media of the Western world is now even more totally controlled than the media of the Soviet Union was.

Yet people actually think that the globalists – or call them what you will – who are running the Corona operation would not make up whatever 'opinion poll' numbers will best suit their purpose?!

Every dictatorship in modern history has exerted all of the power of the State to convince anyone opposing them that they are members of a hopeless, ludicrously small minority – and that 'resistance is futile', or whatever the Daleks used to say.

A week ago, a top General in the US army said that 75% – yes, 75% – or the US armed forces were refusing the pretend 'vaccines'.

A week later, that propaganda error has been 'corrected' – and the media brainwashing machine is now claiming that's '25%'!

But I wouldn't be surprised if the 75% is actually true. And what is more, I wouldn't be surprised if it might be fairly reflective of the US population in general – and perhaps, to a less degree (because Brits are now far more unquestioning of everything than Americans) if the resistance to being injected with the 'vaccines' in the UK isn't far higher than the globalist Bill Gates puppets running the UK government are claiming.

The next stage, once they've got their gene-editing substances injected into most of the populations, the criminals running this operation will announce the first of an endless succession of follow-up "vaccines" that everyone will have to submit to – and they'll announce that if you've already been injected, you'll be risking your life, if you don't have the 'follow up' pretend 'vaccines'.

It will never end. "Inject until you die" is the plan – and since there is no politician or government which is not signed up to this agenda, it will be pursued for ever – or rather, for as long as we're still alive.

LITTLE RESISTANCE TO 'PANDEMIC' PLUNDER

It is clear that something is going on behind the scenes. The chances are that the elites have found an ideal way to plunder the health systems of the world, especially the Western world (where they constitute a considerable part of the budget) and, through them, a new way of accumulating wealth in their hands (through taxes, shares in pharmaceutical companies, reduction of services, etc...). By using health as a weapon for appropriation, they have managed to reduced opposition or, as we see today in most of the world, to eliminate it altogether and, even, secure the willing collaboration of the majority of the population.

There is little 'resistance'. The long term effects could be, indeed, the elimination of surplus and 'expensive' sectors of the population or the reduction of their life expectancy, etc... this, their 'Happy' New World.

Wouldn't doubt they'll attempt to use celebrities and other politicians in a reverse psyop to come out using a variant of the current ploy:

Celebrity #1: "I was skeptical at first but it's inevitable we'll all need to be vaccinated to go back to normal".

Celebrity #2: "Even though I was skeptical about the efficacy of the vaccine I decided to get the jab so that I wouldn't help spread the virus at all of my concerts and here's my vaccine certificate to prove it"

My speculation...Since the "vaccine" has not yet been approved by a government agency, the government won't be able to issue a "vaccine passport" mandating it to everyone at this time. Which is why you hear people saying things won't go back to normal until at least 2022, because that is when the actual studies are going to be completed and the vaccine can therefore can be approved for use. The "emergency" will then be removed and that is when the passport or mandate will be put into place.

I think you'll find the link on the Lockdown Sceptics website.

Regarding Kit's item above... how were all these longtime sceptics like Sumption and Hitchens nobbled? They can't all have flown on Epstein's jet. It's just that these characters easily have enough intellect to apply the same critical thinking to the vaccine programme as they did to the claims surrounding the plague, and yet they did not.

Another thought regarding Iain Davis's piece on deaths taking place shortly after vaccination. Is there planned to be an update? Is there a website anywhere keeping track of suspect deaths or clusters of deaths occurring shortly after the jab? Given all that is not known about the vaccines' long term effects, there will surely be more casualties than those Iain highlights, but as has been the case with other vaccines, the govt is unlikely to admit to any.

First off, these pretend vaccinations (they are really secret gene therapies) are part of stage 3 in the ongoing trials that will last into 2023. Why do you need to inject 100% of the population to see if these dangerous experimental potions are going to work? 5-10% would be sufficient to discover efficacy over the next two years.

Second, since they are useless against the virus as far as preventing deaths, the transmission of it or even from getting it, they are not required and serve no rational purpose. That is unless these RNA/DNA altering concoctions have a different and unknown to us purpose, which I personally suspect they do.

No celeb would ever convince me since none of them are getting the real stuff. They are as fake as the pandemic. I don't care what others or even my family thinks about me calling the pandemic fake or refusing these poisons. I do not go for the current "in" thing and prefer to do my own thing. The scarcer the better for I have absolutely no fear of dying from any virus (although it could happen for reasons beyond my control) and resistance is absolutely, positively required if you desire to remain human and in control of your life.

Why would they need to inject you with a tracking device when you're already carrying a tracking device around with you. It's called a smart phone. Even a non-smart phone can triangulate your position so that they have a reasonable idea of where you are. Anyway, the Anti-Christ, Bill Gates, is investing in putting satellites into orbit that will be able to track everyone in real time at all times.

My only question is this. Since the vast majority of the globalists are white, like Bill Gates, Bezos, Musk, Bloomberg, etc. Then why aren't they being called out on their "White privilege" and forced to use their vast wealth to pay reparations to POC?

I don't care how communistic or socialistic this sounds. But, these multi-billionaires need to be stripped of their wealth which can then be used to fund healthcare, education, and other social welfare programs.

Exactly why does anyone need one hundred billion dollars or even two hundred billion dollars? Other than to feed their egos while they sit around believing they can run everybody else's lives.

Sadly, while we oppose the lockdowns and endless masks where I live a lot of us are getting the "vaccine." There are many high risk, elderly here who see it as a way to get their lives back.

They continue to wear masks. Not sure when they plan on removing them. Dad says he is waiting till the Experts say it's okay. What experts? Fauci? Dad laughs at that quack yet continues to do whatever he says though he says the masks will come off very soon despite Fauci. On what basis? Everyone is looking to that creepy cross between Josef Mengele and Emperor Palpatine for the proper time.

We can either take them off when we choose to, or wait for Fauci's okay and wear them till Doomsday.

Worried what nonstop mask wearing—he wears the heavy kind all day when working as a janitor—and mRNA will do to him. He just got over cancer when this crap started. I don't think he'll be around much longer. Mom neither. Very depressing. I feel isolated despite relative freedom where I live.

My brother calls me crazy, negative and paranoid. Said I wanted Mom and Dad to die last year when I mentioned how odd the lockdown seemed with no historical precedent. He's been making them miserable—screaming over the phone for them to isolate and live in terror and not have a Golden Anniversary. Jerk!!!

He's happy with everyone else losing their livelihoods and going homeless. It's advancing HIS career so who cares how many die of food shortages, suicides, and the precious "vaccine" he's happy to kill people with? He earns 250,000,000 a year. I wonder if he asked for a raise when they demanded his soul.

I hope he feels bad when they die. But money is all he cares about so it's doubtful. Morally bankrupt with 0 empathy is what he is now. Sadder than losing Mom and Dad.

At least I gave them a party yesterday. That greedy, money hungry, Big Pharma POS can't take that away.

So I just shut up about it. I no longer communicate with my sociopath brother or discuss the "plague" and the fatal remedy with Dad and Mom. My parents are already good as dead. Might as well make their last days good ones.

But I will let my brother know at their funeral that I hold him accountable not just for their deaths, but countless others.

Exactly.

In a genuine situation the most vulnerable should have been offered it and explicitly informed they are not fully licensed and the long term safety unknown but may offer short term protection.

Once the over 65 age groups who wanted it and taken it then all restrictions should have been totally lifted.

The idea of vaccinating the whole planet is self evidently absurd.

But then, so many things have changed in this year that were generally held global public health policy, like lockdowns. And herd immunity. Where were the voices pushing back from all the gutless wonders who knew that from working in the industry, and who said nothing, cos it was the safer option.

Gates knows that he has to get a move on, to achieve his oft-stated goal of reducing the world's population by 90% before he dies.

Now that, via his Gates Foundation, he has all of the governments, and all of the politicians and scientists who count, on his pay roll, along with all mass media, he and his oligarch pals know that there is absolutely nothing to stop them: they can tell whatever Big Lies they like – and the media will ram the message through, again and again, until it becomes a 'truth' – just as they've done with 'Carbon Zero' and the 'Climate Change' Big Lies – and just as they will soon be doing with the Great Reset, once they end the furloughs – and reveal the economies as so hopelessly in debt (totally deliberately) that only a Great Reset can provide the solution to the economic collapse they will soon put into motion.

The Jews in 1930s Hitler's Germany were lucky, by comparison with us: they could at least escape Germany to some other country.

But in the oligarch's Brave New World they are creating – a global Police State – at break neck speed, there will be nowhere to escape to for us.

He's entirely correct about the FPR of Lateral Flow Tests.

He's also pointed out in previous tweets that when LF tests are conducted in any situation that the percentage positive is never more than the FPR.

Monotti did tweet recently that the Sars Cov 2 virus has not been properly isolated and backed it up with proof.

Pat Robertson recently came out and talked about all the side-affects that can result if you do not get the vaccine. Is there any substance to his argument or is the 700 Club just turning to the secular mob for their news? Does anyone know if the side and long-term affects have any merit?

If you are speaking of side and long-term effects of the "virus" (which, by the way, is simply this year's variation of the flu), you should be MUCH more concerned about the "vaccine". I put "vaccine" in quotes because in the truest sense of that word, it's not a true vaccine. I'm a doctor well-studied in virology, immunology, pathology, biology, etc. Since I was in school back in the 80s, I've refused to get any kind of preventative or curative inoculation knowing how ineffective and dangerous they were. I would not get any of my kids vaccinated and the absolute healthiest kids I know are those who never received any type of immunization and were allowed to build up their own immunity naturally.

That being said, the push to inoculate the world has absolutely nothing to do with the health of the people and everything to do with control, money and power by reducing the population over time through sterility and death – what this experimental, untested, biochemical substance was designed to do. You are already on a forum and website that is exposing the truth, continue to look at RFK's vaccination site, thetruthaboutvaccines.com and america's frontline doctors for starters. You will find truth and frightening reality. People ARE dying from the vaccine; many more than are being reported by the CDC (you can probably multiply their numbers by a factor of 10-15). People ARE having adverse reactions (tens of thousands in a very short period of time). Escalation IS present – as soon as a reason not to vaccinate is brought forth, the government, CDC, NIH, WHO and their puppets (many doctors, media and organizations), are quick to dispell it with false counter-information. They want you to take the vaccine no matter what.

I've had CO-VID (and have had much worse flus in the past) and now have a natural immunity. I won't get it again and won't give it to others. It's immunology 101, yet the corrupt system will STILL tell you that you need to take the vaccine. I refuse. The scary part is – there are many ways they could covertly get it to you without you even knowing it. We all have to seek the Lord for wisdom, protection, the downfall of the wicked and the lifting up of the righteous. We are in a time of judgment and need to fall on our faces before the Lord, repent and turn from the apostacy this nation has fallen into that has led to this. A nation that turns its back on the Lord Jesus Christ; God will turn His back on.

I see this as a judgment on the west's indifference. Not just to the unborn, but the neglect and abuse of the elderly in homes and the harmful drugs forced upon the disabled. No one called out doctors on this. No churches even. A lot of ignorance. But maybe they didn't know because they didn't care.

Almost killed by standard medical care. But no one in the church offered me help or comfort. Except one or two. My brain had become inflamed. Diagnosing me as bipolar was the easy way out for the doctor. He forced 3 times the stuff on me for years. No help from anyone at church.

God's people alternately shunned me as a lunatic—I couldn't think straight due to drug reaction—or rebuked me. Saying it was my own fault for not obeying the nice doctor. Because if I had I would feel better.

Not suffer seizures, chronic migraines, exhaustion, numbness, tics due to CNS damage, amnesia, long term depression, etc. All MY FAULT for not following doctors' orders according to the doctor. Whom they implicitly believed. Not me. Nor even their eyes as they saw me comply and seize and grow horribly sick. Sometimes bedridden. But gotta take those pills no matter what.

Doctor's orders outweigh patient's well being or health. If you're diagnosed SMI.

And by farming us out to "Experts" they could justify refusing to fellowship or bear our burden's. So they gladly turned a blind eye and deaf ear to those of us suffering this way. And made no complaints at how the "life saving meds" crippled and killed us so young.

I can't help seeing this whole "pandemic cure" as divine judgment. If I were an atheist I'd still see it as nemesis or karma.

I think you answered your own question, this, the rate of mortality with virus 0.25 less than annual flu, mortality rate of vac. at the very least to date is 5.0 on the Children's Health Defense, also if you go to world death rate map, shows no increase from 2018 to 2019 worldwide, how can that be you ask? I listen to the local right-wing radio station in Washington, DC, WMAL. Beginning while Trump was still president and continuing today, several times an hour they have an announcement by a guy with a country-sounding, good-ole-boy voice, "Have you heard the good news? The Covid-19 vaccines are here..." And then they proceed to tell you how you can help the fight against the scourge by the usual mask wearing and social distancing until that wonderful prize is yours. The sponsor of the advertisement, they tell us at the end, is the U. S. Department of Health and Human Services. It's really relentless.

Well interestingly and certainly in UK; SAGE and the government have NOT studied every angle of this supposed pandemic!

Like anything sudden it takes time to obtain all the facts!! If you are into problem solving it is essential that you study, and report, on absolutely EVERY ANGLE!

So if that is the case what do we know to date in the UK about the facts of Covid – SARS 2??

To date (from the John Hopkins University data collection) in UK:

Total cases : 4,210,000

Recoveries: —

Deaths: 124,000

So there is a variance of: 4,086,000 that appear to be in limbo□ □

UK hospitals have a reported bed total of around 120,000, and it is reported that around 30,000 beds are filled with Covid cases!

Also looking at medical reports show that the recovery period on average is between 20 to 40 days – yes there are those who suffer long term effects after contracting then surviving Covid! Many of those who are from the variance figure of 4,086,000 have recovered (3,750,000 by the end of last year) before vaccines came into use!! □ □

It surely would be very important to establish from the “variance” figure of those that have recovered; which ones, and how many, have fully recovered and those who have long term illnesses as a result!!!!

Once a government figures these out realistic decisions can be made on what actions should be taken to help deal with the problem!

Many other countries do record recoveries as it would be important to understand those figures to make informed decisions on how to handle the problem!

Let's look at some of those:

Germany:

Total cases: 2,490,000

Deaths: 71,852

Recoveries: 2,418,148 (97.11%)

Australia:

Total cases: 29,002

Deaths: 909

Recoveries: 25,486 (87.87%)

India:

Total cases: 11,200,000

Deaths: 158,000

Recoveries: 10,900,000 (97.3%)

I could go on – remember these recoveries are without the use of vaccines!!!

Also it has been well known that PCR testing has produced many “false positives” and many reported Covid 19 deaths were logged as such, but the average age of deaths were logged as 82+ years of age and had underlying illnesses!?!?

It has also been noted that quite a few families have found loved ones who have recently died had “Covid” recorded as the cause, when in fact they died of other causes!!

So is it right to insist on a “Vaccine Passport” when this would ostricize many people who can't have it due to such like pregnant women etc.

Or perhaps some other kind of badge? "Maybe all these tricks will fail and they'll be forced to use less carrot and more stick. But it seems equally possible that – for now at least – they're being dangled over people to encourage defeatism in those of us who are resisting, and thereby increase vaccine up take."

There's something contradictory about Kit's argument here. They are telling us what they are doing to do. We didn't invent vaccine passports. They have been telling us what they're going to do every step of the way, with all elements of this harmful, criminal, terrorist operation in which elites view us as rats (Whitney Webb explains) and cattle (Catherine Austin Fitts explains).

They 'have' rolled out vaccine passports here and there, reportedly.

Could Kit be right about messaging around vaccine passports being a ploy. In other words, is it less of a certainly than other elements in the hoax? Perhaps. (James Corbett did a video titled "**Resistance Is Fertile**" in which he discusses the authorities' tactic of using trial balloons. That would apply here, I suppose.) There would be no way for us to know, short of inside knowledge.

I feel defeated by the hoaxsters, but that doesn't mean that I'm prepared to cooperate. I'm certainly terrified by the hoaxsters, precisely because I grasp that I will be tested. That's just reality. And it leads me to thinking hard about where my line in the sand will be and other things. I see no profit in putting my head in the sand.

Are the soft power agents (Elton John etc) aware of those? From the fascist authorities' standpoint, the public messaging that uses soft power agents would no doubt be a desperate (and simply logical) counter to the increasing reports about increasing injuries and deaths. I have lost more than anything, that I can describe. What happened to us, should not in the nature of things happen to anyone, but it does. In fact it is quite normal, even if you are extremely fit and healthy, and addicted to risk...riding fast motor cycles to the limit, got bored with that, but still wanted more g more risk more excitement, and you learn to fly and go solo..without any engine...You actually want more extremely unstable air...The thermals go up, and that is all you have got except the parachute on your back...

Its the most brilliant day, and they know you can fly a bit..checked your log book, and let you fly solo in their Pirat Glider at Sutton Bank in Yorkshire..Well Derek Piggott CBE let me borrow his Pirat at Lasham Gliding Club. I read his book before I turned up, and taught me almost everything...not just about the risks of flying gliders, but self discipline in every aspect of life, when everything has gone wrong eg...the rope has snapped on take off..what are you going to do...if you make the wrong decision you are going to crash. You are not only going to probably kill yourself, but you are also probably going to destroy one of our Gliders...

But I started off in 1976 at Derby & Lancs Gliding Club Great Hucklow....and if you can fly an old glider through the windsheer there...

So Bruce Dickinson eat you heart out of your tales of learning to fly (his book is hilarious by the way) This man has done more extremely difficult things, some completely the opposite of what your typical rock star would do. You are expected to be stoned out of your face, on every drug going including LSD....You are supposed to be virtually flying....Not Flying The Airline to The GIG in Real Time, and occasionally catching the Train in the USA, whilst fencing representing the UK and writing books, and going to warzones and playing a gig for a laugh

This Man is Completely Mad, but I like his book (i think he once turned up in our local pub, but I was too shy to ask or talk to him. He is younger than me. I had already met Lemmy who's book is even funnier. I think he was probably with his kids.

According to his book, and I have no reason not to believe him, both Metallica and Motorhead had been offered the gig, but said No – we are not that mad.

So Bruce Dickinson asked his band and the roadcrew...Are you up for it? Everyone say what you think. If anyone says No, then we won't go. They all said what the hell lets go

So they flew on a "Charity Concert" to Split (Yugoslavia) and then via various means to Sarajevo which was under siege

Just to do a Gig...

That is some kind of courage and he is still doing it, so far as I know

Tony

One way to control the opposition is to lead it ourselves! I Never liked Hitchens he was black pilling from the start ! Telling everyone on Talk Radio for months that everyone was bending over and complying, and how depressed and isolated we all must feel, perhaps he missed the 2 million strong demonstrations in Berlin and 1 million in London (unprecedented numbers) And Sumption is forever making the false argument that Legislative Law takes precedence over common Law, perhaps he forgot the Nuremberg trials which set the clear legal Precedence, that following orders (legislative Law) is no defence for violating Human Rights (common Law) which kind of lays it bare that Common Law Always takes precedence, although common sense tells us that ! But not according to establishment blagger Sumption, no of course like all of his legalese scam artists friends, its all very complicated thats why we need to pay arseholes like him large amounts of money to tell us what our rights are. Of course its not remotely complicated, thou shalt not Kill or otherwise harm, falsely imprison steal ect ect there isn't a single injustice which cant be remedied by common Law, Legislative Law is just state injustice, and you kind of have to break common Law to implement most of it !

Besides the fact he doesn't inform us that using Force FRAUD or COERCION to induce ANY individual to ingest ANY substance which significantly alters the bodies natural function, is the common Law crime of Poisoning ! and if anyone dies after taking the vaccine thats Murder ! It just shows you how utterly corrupt the system is, although plenty of judges have been busy overturning police fines for non compliance, just not the one who get on TV !

Golden rule of thumb if they're allowed any significant airtime / media attention, they are part of the establishment (a certain religious group and their useful idiots) if they are maligned by the mainstream, then they are controlled opposition. Hitchens Sumption and co set themselves up as our leaders and surrendered in our name, sorry to disappoint them but they never were that popular, well they certainly aren't now !

Lord Sumption states quite clearly in his interview that if a law is unjust (legalism) one need not follow it (common law)....

He then gives an example of how a prosecution against a man who did not carry an identity card (still required after the end of WW2 in the U.K.) was thrown out by a judge who stated it was obviously preposterous.

This of course is an allusion to vaccination passports....

It seems some in the general population have been so dumbed-down into intellectual slumber by contemporary corporate news media and pseudo-education that they find it impossible to ascertain anything more than what is spoon fed to them in 'twitter' size bytes.

Some archiving techniques for both old and young people who take photographs.

1. Remember where you put the originals. I put mine in the attic in a suitcase about 50 years ago.
2. It is helpful if you write at least some of the details down

3. No one is the slight bit interested in any of your photography from 1953 to 1973, except a few people who are as old as me.
4. Finding your old stuff, can really cheer our generation up.
5. Over the years you might have found a bit of your childhood stuff and maybe digitised about 0.5% of the stuff which you still didn't label properly.
6. Then you have a disk crash, and if you didn't back it up somewhere else, you have lost 20 years of history (not helped when you change girlfriends – I won't bore you with the details – try and keep the negatives)
7. You might have bought a nice snazy printer 30 years ago, and you printed some of them out on the latest photographic paper – or even 5 years ago...wasted a lot of time on extremely expensive ink..and you put your photos up on exhibit in your kitchen in the sunshine...all blatted and decolourised, by the poor ink, the printer and the sunshine
8. If you want to keep the photos on paper then use a commercial printer. It may seem more expensive at the time, but in my experience the commercial prints have lasted over 30 years, and still look fine, whilst everything I have ever printed looks completely washed out.
9. Keep The originals. Back Them Up if you Can, but do not expect anything or anyone to last forever
10. Cheer up eg your 75 year old sister in a nursing home, by finding your old photos, in any way you can, when we were kids, and include a nice Easter Card, and then phone her up on Easter Sunday, and then visit her. She maybe in the equivalent of jail, but she ain't dead yet, and we maybe able to help plan her escape, so she can paint. Her artwork was Brilliant when we were kids.

A lot of my conservative friends and family have been jabbed.

I tried to point out how the messages made no sense. "What is the 'vaccine' even supposed to do Dad? According to Fauci—the guy you call a liar yet continue to obey—we'll still need masks and lockdowns forever. Aren't there safer ways to boost the immune system? Remember how deathly ill Uncle Dave got when they jacked up his immunity artificially as a last ditch effort to kill his cancer? Why do you want them to mess with yours permanently?"

Too late. They are trusting, honest, kindly people who can't comprehend the evil out there. Because they think everyone acts like they do. Sigh.

A "There were no more deaths in 2020/2021 than in 2019/2020, so there is no new, deadly virus. It just got a new name."

B "No, that new virus is there, but only the lockdowns protected us from the catastrophe!"

A ???

thats not quite true, according to the ONS there were 80000 more deaths in 2020 than the previous 4 years, about 15% higher. At a guess maybe half of those caused by covid,

and half caused by hospital closures etc, which would mean 40000 (7.5%) excess deaths,

And the explanation pre-2004 when covid wasn't around?

The 2020 number could also be significantly reduced by deducting the euthanasia of care home residents, the overly enthusiastic application of DNR Notices and iatrogenic deaths.

There is no doubt that after very ill people were decanted out hospitals into care homes, that 60+% of excess deaths occurred there. Which explains many of the excess deaths early on. Everywhere that followed this model, saw shocking death tolls. Fact is, in last 30 years, we saw 20 worse years for deaths per 100000 of population. It was a blip year fuelled by a shocking policy decision.

One simple question. Why assume only half caused by lockdowns and not all? When you figure in suicide, isolation ie torture of old people, DNR, no elective procedures and not even bringing in emergency patients to hospitals I am amazed there are not massive amounts of excess death. Not to mention the 24/7 fear porn and suffocating masks. I don't think you can underestimate the mental toll and death it has caused for the people out there who think they are being stalked by a deadly virus. Keep in mind that this number goes up every year as populations age. So the planners of this scam knew they would always have some number they could point to drive the here.

How can be proved that lockdowns did not help?

Easy. Sweden had less deaths than 2019. So did Belarus

Also compare Florida to California. Similar in population density and ages.

Celebrity & leader endorsements are laughable. There's no absolute way to know if they've actually been personally injected with these promoted pharmaceuticals, even if it's shown live. They're actors and politicians. Reality is not what they're selling and never has been. Furthermore, there is no stopping the precedent set here. If citizens allow medical coercion for Covid19 they are opening the door for governments to continue medically mandating personal individual health choices in the future, which is what farmers do for livestock.
