# Bombshell: Nobel Prize Winner Reveals - Covid Vaccine is 'Creating Variants'

 Renee Nal  May 18, 2021  98 comments  5 min read

**Prof. Luc Montagnier said that epidemiologists know but are “silent” about the phenomenon, known as “Antibody-Dependent Enhancement” (ADE).**

While it is understood that viruses mutate, causing variants, French Virologist and Nobel Prize Winner Luc Montagnier contends that “it is the vaccination that is creating the variants.”

The [2008 Nobel Laureate](#) made the explosive comments as [part of a larger interview](#) with Pierre Barnérias of Hold-Up Media earlier this month. The clip was exclusively translated for RAIR Foundation USA, and is quite damning for the agenda-driven left-wing establishment.

the left-wing establishment so much that they aggressively attempted to [discredit](#) his statement. Now, the media is [backpedaling](#) on the origin of the coronavirus after prominent scientists called for further scrutiny.

## Vaccines are Creating the Variants

Prof. Montagnier referred to the vaccine program for the coronavirus as an “unacceptable mistake”. Mass vaccinations are a “scientific error as well as a medical error,” he said. “It is an unacceptable mistake. The history books will show that, because it is the vaccination that is creating the variants,” Prof. Luc Montagnier continued.

Receiving the Nobel Prize in 2008

The prominent virologist explained that “there are antibodies, created by the vaccine,” forcing the virus to “find another solution” or die. This is where the variants are created. It is the variants that “are a production and result from the vaccination.”

## Antibody-Dependent Enhancement

Prof. Montagnier said that epidemiologists know but are “silent” about the phenomenon, known as “Antibody-Dependent Enhancement” (ADE). In the articles that mention ADE, the concerns expressed by Prof. Montagnier are dismissed. “Scientists say that ADE is pretty much a non-issue with COVID-19 vaccines,” an article at Medpage Today [reported](#) in March.

Prof. Montagnier explained that the trend is happening in “each country” where “the curve of vaccination is followed by the curve of deaths.”

letter stated in part that “there have been numerous media reports from around the world of care homes being struck by COVID-19 within days of vaccination of residents.”

Earlier this month, RAIR reported on a statement by French Virologist Christine Rouzioux:

” “...the rise in new cases is occurring in vaccinated patients in nursing homes in ‘Montpellier, in the Sarthe, in Rheims, in the Moselle...”

Prof. Luc Montagnier continued to say that he is doing his own experiments with those who become infected with the coronavirus after getting the vaccine. “I will show you that they are creating the variants that are resistant to the vaccine,” he said.

Watch the clip (transcribed below):

Many thanks to HeHa and Miss Piggy for the translation!

(Questions are **bolded**)

deaths.

**Notably among young people.**

—Yes. With thromboses, etc.

**How do you view the mass vaccination program? Mass vaccination compared to treatments that work and aren't expensive.**

—It's an enormous mistake, isn't it? A scientific error as well as a medical error. It is an unacceptable mistake. The history books will show that, because it is the vaccination that is creating the variants.

—For the China virus, there are antibodies, created by the vaccine. What does the virus do? Does it die or find another solution?

—The new variants are a production and result from the vaccination. You see it in each country, it's the same: the curve of vaccination is followed by the curve of deaths.

—I'm following this closely and I am doing experiments at the Institute with patients who became sick with Corona after being vaccinated. I will show you that they are creating the variants that are resistant to the vaccine.

**Should we be vaccinating during a pandemic?**

—It's unthinkable.

—They're silent... many people know this, epidemiologists know it.

—It is the antibodies produced by the virus that enable an infection to become stronger.

—It's what we call Antibody Dependent Enhancement, which means antibodies favor a certain infection. The antibody attaches to the virus, from that moment it has the receptors, the antibodies, we have them in the macrophage etc.

—It pokes the virus and not accidentally, but because of the fact that they're linked to the antibodies.

—It is clear that the new variants are created by antibody-mediated selection due to the vaccination. OK?

What can i do tho? I’m just one man.

[Reply](#)

“What can i do tho? I’m just one man.” -Chris Arvut

Given your premise, all you can do is curl up into a ball and die.  
Maybe a more pro-active posture in politics, and network with others to effect change, perhaps without the need to resort to violent resistance.  
But you can always just accept your fate and be victimized.  
What is your life worth to live it?

[Reply](#)

**Kk**

May 24, 2021 at 1:20 am

You are just one man – so each of the billions of the “one” man and woman have more power in the collective than the few “one” man that put this on us. Wake up and realise that it is the masses of the “one” man who change history in either complying to the lies or the truth. Don’t say yes to the vaccine or you are the perfect “one” who has just agreed to the agenda you are not happy with, right?!

**Mike**

May 19, 2021 at 12:35 am

Immune pressure ALWAYS causes Virus’s to mutate, usually into a less deadly but slightly more transmissible form. It’s called survival of the fittest. It does not concern me in the slightest. I learned Public Health and Pathology/Virology BEFORE this Politicization of Medicine to promote Communism. That is why I got my Moderna Vaccinations without the slightest worry.

Well said.

[Reply](#)

**Whisperin**

May 19, 2021 at 8:56 pm

I have no medical or research background, and for what it is worth, I agree with your hypothesis. It seems, at least to this self-educated layperson, that viruses have always mutated with or without the introduction of vaccines. I got both Pfizer shots without the slightest worry, and have experienced zero side effects. Now, people who had warned me that I would drop dead if I got the vax have moved the goalposts to 1-2 years down the road, and that I will likely become sterile, or suffer some other fear-induced, imaginary malady..... if I don't drop dead first. At which time I expect the goalposts to be moved again.

I'm not pro or anti vax. I'm pro choice.

[Reply](#)

Well considering every ferret died within 3 years in the mRNA trials, and this time there were no animal trials, they used humans instead, all I can do is wish you good luck. Nobody has moved the goalposts, this is what has been expressed from the beginning. It may get some early and some later down the track, just as it did in the animal trials. I sincerely hope I'm wrong and you will be fine, but I can't understand why anyone would want to be a lab rat in this trial, considering they've never been able to make a safe mRNA vaccine in the past with bottomless pits of money for research and development and the virus has such a high survival rate. The biggest cause of non-natural death for the past century has been deceptive governments #democide. Over quarter of a billion murdered, many of whom voted for their democratically elected killers. Now why wouldn't this trend continue? And considering this, isn't it strange how so many people only trust info if it comes from a government source.

May 20, 2021 at 11:23 am

I'm not getting any covid vaccine as allowing these clowns to inject their rushed muck into my body over an illness as trivial as cv19 would be the height of stupidity.

Reply

**Mani**

May 21, 2021 at 3:56 pm

Trivial my dear , imbecilic are you , friend ? !

Flat earther , holocaust denier are your friends , may be ?

Just visit a ICU where a patient is in needing to be put on Ventilator

and expects to die more than 50 % chance of a lonely pain filled death over next few days or weeks and also be buried where his relatives can't be near .

Or at least talk to a moderately affected Covid survivor having post Covid body aches and malaise for weeks , my niece in Delhi staff nurse and her doctor hudban husband in early 30s can tell you .

I think then you will rush to get yrself vaxinated even if it offers only 60 % protection from a variant .

Reply

**Jennifer**

May 21, 2021 at 8:16 pm

Imbecilic? Sounding a little brainwashed yourself. I'm sorry your niece wasn't given treatment when diagnosed. A ventilator is certain death and many were unfortunately over treated in 2020 in a rush to judgment. Covid19 is a virus with a 98-99.5% recovery rate for healthy ppl. It's a risky infection for those with 1-2 or more underlying diseases, however, if treated early the chance of survival is still much greater than any experimental gene-altering injection. If the government wasn't so busy suppressing the 3 most-widely accepted, available treatments to support billions in Pharmaceutical profit you could avoid all that fear that consumes you.

**Penni**

May 22, 2021 at 7:24 pm

Well said!! There are safe treatments can stop this virus, but no profit in them! People need to wake up and stop trusting greedy, evil politicians with their lives. Politics has zero place in medicine! And follow the big pharma money trail and you'll know why the world is broken!!! ☐☐

**Nil Bye the science turtle**

May 22, 2021 at 12:46 am

You are the most simple minded, brainwashed clown I've seen in a while. The virus has over a 99% survival rate, it seems to only affect the mask wearing dummies too..funny that! Flat earther? What a cop out. Every single ferret in the last mRNA trial died within 3 years, they skipped animal trials this time to use humans instead, and you think everyone should be as stupid as you are? Read some history you fool.

[Reply](#)**bonnie**

May 23, 2021 at 4:45 am

Don't blame the virus. Blame the government not allowing us to use the cures. Ivermectin is even better than hydroxychloroquine (with zinc), because it works not only in the first 5 days, but anywhere in the illness trajectory. They won't even let you know about preventing it by boosting the immune system with Vitamin D, C, and zinc.

[Reply](#)**S**

May 24, 2021 at 6:33 pm

Ivermectin, HCQ, zinc, etc. ALL PROVEN to cure this thing. No poisonous needle needed. Don't be foolish, research and question everything!

[Reply](#)**Someone**

May 23, 2021 at 12:30 pm

Well said tim 😊

[Reply](#)

Selective pressure doesn't cause mutations. The mutations are always happening. The problem with a vaccine, is that it forces the body to produce special purpose antibodies at the expense of more generalized ones. Thus, mutant variants can waltz right through the defenses in a vaxxed individual.

[Reply](#)

May 25, 2021 at 2:42 am

It's actually herd MENTALITY.

[Reply](#)

### **Buck Fiden**

May 19, 2021 at 5:12 pm

Herd immunity is a superior form of 'acquired immunity'.

[Reply](#)

### **Minister Emoven**

May 22, 2021 at 4:16 pm

Vaccine herd immunity was derived from natural cycles of disease that once 65% of the population have contracted a pathogen, then the rate falls... this was appropriated by vaccine makers and as 65% is not enough sales, they changed it to 96-97% requirement as that is as much as they ever get, even if made compulsory... i tend to think it is resonant DNA transference creating a kind of 100th monkey principle... □

[Reply](#)

### **David A**

May 24, 2021 at 4:15 pm

With almost forced mass vaccinations you are conducting millions, nay billions of unneeded experiments. Most of the population was not seriously threatened by the Wufu, and natural immunity, antibodies and T cell is longer lasting and more broad scoped.

[Reply](#)

Poppycock! Viruses are non-living entities. They don't make determinations to mutate to survive! What B! S! They mutate because of copy errors, pure and simple.

[Reply](#)

**Buck Fiden**

May 19, 2021 at 5:13 pm

RNA viruses are 'sloppy' replicators.

[Reply](#)

**Rich**

May 19, 2021 at 6:17 pm

He dumbed his answer down hoping you'd understand it. Viruses reproduce. Viruses also mutate, constantly. Most mutations die off. But if you put a vaccine in the mix, the viruses that mutated and become resistant to the vaccine are the ones whose population increases. And just like that, you've created a new variant.

[Reply](#)

**Minister Emoven**

May 22, 2021 at 4:22 pm

Viruses have no reproductive ability, all that happens is that cell endosomes reproduce the intruder and then exit the cell as exosomes in order to warn other cells of the intruder ID... which completely makes poppycock of the "reproduction inhibited" chimp adenovirus claim for the Oxford version...

when "viruses" are cultivated in labs they have to use a live cell assay in order to hijack that exosome production and reproduce their introduced RNA fragment (never been a whole virus to do it with)... an example is the Qive flu vaccine which cultivates 8 separate genomes in dog kidney assays and then manually edits them together... and they call that a "wild strain" when it is simply a lab constructed assumption...

[Reply](#)

**blondbraids**

May 23, 2021 at 8:26 am

Finally a voice of reason. You're right, of course.

May 19, 2021 at 3:39 am

I'm wondering since I don't feel it was clearly explained: How are antibodies from a vaccine different than antibodies from encountering, and fighting off, the virus itself?

How would vaccine antibodies mutate the virus more than "regular" antibodies?

**Reply**

**ManI**

May 21, 2021 at 4:30 pm

It's not anti bodies that mutate , it is the Viruses .

The anti bodies resulting from the body producing it for the Virus are the ones that will stand you in good stead to brave a second episode , even a bit modified variant if it be .

But that is taking a risk that you might die of the disease it causes if it enters in "some" people a severe stage .

Generally who are these " some " people and whether you might belong to that group can be found a informative web site or YouTube

Or better from a doctor friend trained in Medicine Specialty if you have one wiling to tell you in layman's speech and you trust him not to deliberately lie to you.

Suffice it to say that the antibody produced in response to the 4 different types of Vaccines

WHOLE VIRUS,

PROTEIN SUBUNIT,

VIRAL VECTOR and

NUCLEIC ACID (RNA AND DNA).

The antibodies produce d by these are not the same as , identical to the ones our friendly virus itself produces nor are they naturally same as similar each to others ..

But they serve as a quick fix virus imitation proxy chaps , trigger ing a good enough type and level of Antibody production ,

giving 70 % effective to 90 % effective chance .

Even if they give protection for only 6 months and need a booster later they are a far better bet ,right ?

And the side effects of any of these Vaccines are mild mild mild to nil . Because they are only imitators !

Now it's up to you to trust what I have told here or call it BS and move on. Good luck .

[Reply](#)

### **Ted**

May 19, 2021 at 12:31 pm

Remember what Deep Throat said in All The President's Men, "Follow the money." The pharmas have administered 245 million doses of an experimental drug for which they get paid at least \$20 per dose from the feds (your money and mine paid for this sheet). That is roughly \$4.9 billion gross, so far, on almost nothing invested in research and testing and no liability or responsibility for any outcome, positive or negative. Keep in mind that there is no requirement that the stuff works any more than there is a requirement that it is safe.

[Reply](#)

### **Buck Fiden**

May 19, 2021 at 5:10 pm

RNA viruses, including C-19 are notoriously sloppy in replicating themselves. This is one reason why we are seeing 'variants'. (Something many sage virologists predicted) This goes a long way in explaining how people that have been injected with the experimental brew of one specific formula of mRNA can and are getting reinfected. The new variants are just different enough to evade notice by the very specific antibodies produced by the current vaccines on the market. It even explains how some people who have already been infected with the first iteration of the Chinese Virus can get reinfected. We see the same mechanism in effect with the 'seasonal flu'. Big Pharma knows this and that is why they are saying that we'll need boosters or a new yearly shot for these variants. IMO however, naturally acquired immunity is superior in that we are constantly be exposed to less than clinically significant numbers of variants over time. This results in a broader type of acquired immunity where our immune system has a mix of antibodies that recognize these variants.

[Reply](#)

### **Alan**

May 20, 2021 at 5:08 am

The alleged original virus was never purified and isolated. So, the genetic sequence used in these shots and PCR tests can't be for its spike. Who knows what these evil scientists are using. The variants also were never purified and isolated. Next strain's site claims there are hundreds of thousands of them. The alleged more infectious ones started appearing in countries where these companies were doing trials before any mass vaccination began. Later on, they started appearing in countries which were applying undue pressure on their people to get the shots.

After watching this movie for so long and thinking back on my own experiences with other alleged viruses, I now believe these particular microorganisms aren't real. IMO something else causes the sicknesses attributed to them. Per Doctors treating real COVID patients, HCQ and Ivermectin work extremely well for early treatment or prophylactically. It doesn't make sense two parasitic drugs work in this situation unless of course we haven't been dealing with a virus.

[Reply](#)

### **Gemini**

May 21, 2021 at 10:45 am

Well stated. Our natural immune system is “a mile wide and a foot deep” and always looking out for, and adjusting to, foreign invaders; life is risky.

mRNA changes the immune system to being “a mile deep but just a foot wide”. Great for one thing... only. Isn't that the template for extinction?

These DNA-modifiers are like jello; easy to put the color in, impossible to get out.

The facts and points discussed in depth based on continuous “LAB TEST” & ” INFERENCES FROM SCIENTIFIC MEDICAL ANALYSISE and RESEARCHES MADE”, one can openly agreed to that “the coronovirus is men made especially by CHINA,RUSSIA ,USA and GERMAN just to emerge super power and acquire the crown as Whole World Boss . In this act Modi also roped with China and USA that’s why he invited the Chinese Anti Democrat Mr Zing Ping and the then US president Donald Trump.

Now, as the virus starts with variants by ADE , all the nation now suffering from this pandemic doesn’t know the way of arrest of virus various thought processes are being rumoured from all quarters instead of taking a concrete solution to save HUMEN LIVES.

[Reply](#)

### **Fred**

May 21, 2021 at 4:59 am

He forgot to mention that this “teaching” of the virus will only occur if you introduce the vaccine to someone already infected. To those of us with no exposure and no symptoms the vaccine acts as a deterrent to the virus taking hold. It will do this with an 85% efficiency on the first dose of the vaccine and 100% on the second, at least that is the theory. I have not read any reports of a vaccinated person getting the disease... plenty of them when the vaccinated individual was shown to have been infected at the time of vaccination though. Also of note, you are going to get more variants with increased number of cases. More cases equals more opportunity to learn. Finally, the assumption that the vaccine is holding a gun to the head of the virus forcing it to adapt or die is a tad laughable. It assumes that the virus has intelligence and consciousness and a will to survive. So go on, take off the masks, let the virus roam free and pray that it never develops into something as nasty as Ebola.

[Reply](#)

there is no way to detect SARSCov2, the PCR cannot do it, so there is also no way to detect any improvement by vaccine... and many are testing positive PCR which simply means the test is picking up the body's immune response to the poisons in the vaccine, they cannot protect, only harm... they are experimental and deadly.

Back to Basics in this Fraud...

Government Claim: SARSCov2 is an infectious virus

Excerpt from Government publication "understanding Cycle threshold Ct in SARSCov2 RTPCR" (p6)

"RT-PCR detects presence of viral genetic material in a sample but is not able to distinguish whether infectious virus is present"

[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/926410/Understanding\\_Cycle\\_Threshold\\_\\_Ct\\_\\_in\\_SARS-CoV-2\\_RT-PCR\\_.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/926410/Understanding_Cycle_Threshold__Ct__in_SARS-CoV-2_RT-PCR_.pdf)

Thus: PCR cannot detect SARSCov2

Yet all governmental measures have been based on a PCR that by their own admission cannot detect SARSCov2... thus All is fraud... QED.

Then, how other countries have stopped spread of Corona! Only vaccination has stopped the spread in other countries, except India, where vaccination production and import not enough for the Indian population!

I think the proof is in the pudding. The three first new strains were detected in South Africa, Brazil and England. The three exact locations of the clinical trials of Astra Zeneca. What are the odds?

forgot to say you can find this antibody dependent enhancement on Pfizer website and others just Google.they say it's rare they say but remember this is an experimental vaccine that in 20 years could not get to work and they did it in 6 months when they started human trials which was not that many considering half placebo.all animals during tests before died or had to be euthanized.

[Reply](#)**Jessica**

May 22, 2021 at 5:42 am

India's problem was not shortage of vaccines. It was division. The center controlled everything, including oxygen supply. Vaccines don't save you. Good health care does. Don't go around throwing the fact that one size fits all works. Vaccines work with people's immune system,. The very fact that there are variants testify to the facts that we have varying DNA, so the virus has to worry about it's survival. We people made the situation out of control, by blindly following the govt., and not asking questions. The same point raised in this article was proposed by Dr. Great, but the "fact checkers " are busy discrediting people who expose the truth

Precisely, I have been saying this for awhile that the viruses will continue to mutate with every vaccine that tries to eliminate/decimate them. They too are fighting for their own existence.

We must not forget the misuse of antibiotics that created MRSA.

This is Bcg induced I  
Now in that cases we treat again by anti Tuberculosis  
drugs Forward 3 months  
Here Similar phenomenon may take place  
So I agree with him Dr মন  
His hypothesis is correct

Dear Editor,  
It is of what use to Whom ?  
He should tell clearly. whether to be vaccinated or not?  
Second what to do to save the sufferings of the patient ?  
All experts should emphasize on that.  
Don't discuss views, but bring out solutions for the betterment of victims of any  
variant.  
Regards.  
Khalid Khan

This is more deception, much as I respect Luc's experience, the rapidity of the  
deaths after vaccine does not indicate viral evolution killing them... the effects are  
unlike the claims of the originating virus, which in greater likelihood come from  
Prevotella bacteria which mirrors all the worst effects claimed of covid...(including  
blood clots) found in the original BLV samples and by pathologists in autopsy (no  
virus detected), where PCR samples from positive tests yield no virus by serology,  
as proved by 7 US labs... and the UK Gov have a document that states clearly that  
PCR "cannot detect infectious virus"... so all these positive tests are actually  
simply capturing the fallout of the toxic vaccine which is the cause of death and  
not any mutation of the virus...

[Reply](#)

**Tarak R Sharma**

May 23, 2021 at 4:04 pm

Variants are going to be there whether you vaccinate masses or not. Mutation happens always. Don't blame mass vaccination as cause for mutant.

[Reply](#)

It's the flu...after all

[Reply](#)

Thank you , Till today saving the person and nature has been treated as God . The nature deside the life and death in seconds. Thank you for information and 2 years time .

Man, medical trail , and virus may harm our life .

But God has created our body in such a way that it accept everything .

We should be prepared for the worst and enjoy the best.

No person in world is bad. God has booked return ticket for 80 years. Balance depends on your work it's bonus and results .

God given 80 coins asked to double.

40 good, 40 bad. If you do good 1+1

If you do bad less 1 coin 1 bad. If total bad coins complete you are no more.
