There can no longer be any doubt that the Covid-19 injections are more deadly than the alleged Covid-19 virus itself thanks to a raft of official Public Health and Government data available, confirming more people have died due to the Covid-19 vaccine in 8 months than people who have died of Covid-19 in 18 months.

[NHS data for England](https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-daily-deaths/weekly-total-archive/) (<https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-daily-deaths/weekly-total-archive/>) shows that since March 2020 up to the 12th August 2021 a total of 3,743 people have allegedly died of Covid-19 who had no other pre-existing conditions which include dementia, chronic kidney disease, chronic pulmonary disease, chronic neurological disease, and heart disease.

### Breakdown by pre existing condition

Age group	Pre existing condition			Total
	Yes	No	Unknown presence of pre-existing condition	
<b>Total</b>	85,410	3,743	0	89,153
0 - 19 yrs	38	9	0	47
20 - 39	575	98	0	673
40 - 59	5,887	665	0	6,552
60 - 79	32,615	1,565	0	34,180
80+	46,295	1,405	0	47,700
Unknown age	0	1	0	1

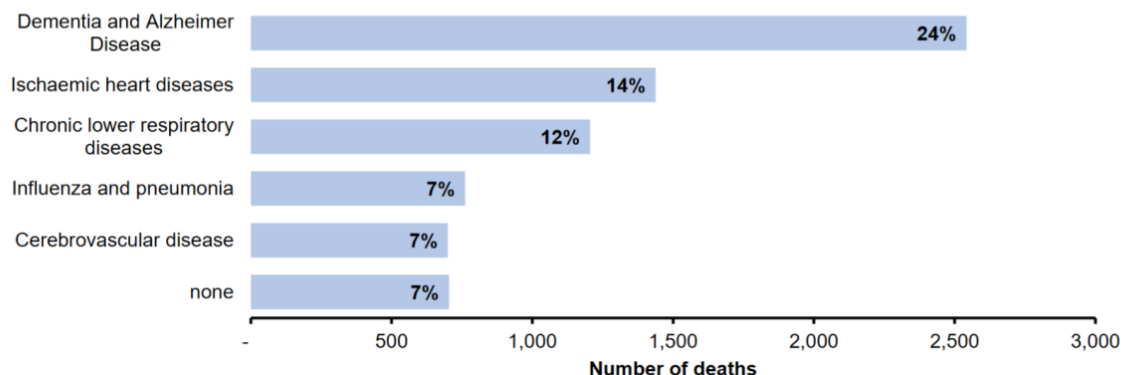

Whilst official [data provided by the National Records of Scotland](https://www.nrscotland.gov.uk/files/statistics/covid19/covid-deaths-21-report-week-32.pdf) (NRS) shows that just 704 people have died of Covid-19 in the whole of Scotland who had no other pre-existing conditions between March 2020 and July 31st 2021.

**Figure 7: Main pre-existing condition in deaths involving COVID-19, between 1<sup>st</sup> March 2020 and 31<sup>st</sup> July 2021**

The most common main pre-existing condition among those who died with COVID-19 was dementia and Alzheimer's disease (24%), followed by ischaemic heart disease (14%), chronic lower respiratory diseases (12%), influenza and pneumonia (7%) and cerebrovascular disease (7%).

However, [data released by Public Health Scotland](https://beta.publichealthscotland.scot/media/8183/21-06-23-covid19-publication_report.pdf) ([https://beta.publichealthscotland.scot/media/8183/21-06-23-covid19-publication\\_report.pdf](https://beta.publichealthscotland.scot/media/8183/21-06-23-covid19-publication_report.pdf)) shows that between the 8th December 2020 and 11th June 2021 a total of 5,522 people died within 28 days of having a Covid-19 injection with 1,827 deaths being due to the Pfizer jab, 3,643 deaths being due to the AstraZeneca jab, and 2 deaths being due to the Moderna jab.

48

## Public Health Scotland

Between 8 December 2020 and 11 June 2021, a total of 5,522 people died within 28 days of receiving a COVID-19 vaccine in Scotland (number of days between vaccine and death is 0-27, where 0 is the day of vaccination, all age groups). A breakdown of these deaths by day and vaccine type is available in the [spreadsheet](#) provided along with this report.

Even when adding the number of people who have died of Covid-19 in both England and Scotland together; which comes to 4,447 deaths in 18 months, there have still been 1,075 more deaths within 28 days of having a Covid-19 vaccine in Scotland.

Public Health England have so far [refused to publish](https://www.whatdotheyknow.com/request/deaths_for_any_reason_within_28_34) ([https://www.whatdotheyknow.com/request/deaths\\_for\\_any\\_reason\\_within\\_28\\_34](https://www.whatdotheyknow.com/request/deaths_for_any_reason_within_28_34)) the number of deaths within 28 days of a having a Covid-19 vaccine in England, claiming they do not hold the data despite their counterparts in Scotland being able to provide it.

But based on the number of deaths seen in Scotland and adjusting to the population for England we estimate that the number could have been as high as 57,470 in England by the 11th June 2021.

There are of course those that will argue that using the number of deaths within 28 days of having a Covid-19 vaccine does not mean the person died due to the Covid-19 vaccine. They are of course correct, but these will be the same people that believe a death that has occurred within 28 days of a positive Covid-19 test is definitely a Covid-19 death.

Which is why we'd like to point these people to the data provided by the [MHRA Yellow Card scheme](https://www.gov.uk/government/publications/coronavirus-covid-19-vaccine-adverse-reactions/coronavirus-vaccine-summary-of-yellow-card-reporting#annex-1-vaccine-analysis-print) (<https://www.gov.uk/government/publications/coronavirus-covid-19-vaccine-adverse-reactions/coronavirus-vaccine-summary-of-yellow-card-reporting#annex-1-vaccine-analysis-print>), which shows more people have died due to the Covid-19 vaccines in 8 months than the number of people who have died of Covid-19 in the whole of Scotland in 18 months.

As of the 11th August there have been 293,779 adverse reactions and 501 deaths reported to the MHRA against the Pfizer mRNA injection.

The Moderna mRNA injection ([https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/1012209/COVID-19\\_vaccine\\_Moderna\\_analysis\\_print\\_final.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1012209/COVID-19_vaccine_Moderna_analysis_print_final.pdf)) meanwhile has caused at least 41,274 adverse reactions and 14 deaths as of the 11th August 2021. This vaccine has also mainly been administered to younger adults who are least at risk of suffering debilitating disease if infected with Covid-19. Around 1.4 million people have received the Moderna jab which means at least 1 in every 33 people have suffered and adverse reaction and at least 1 in every 100,000 people have sadly died.

<b>Vascular disorders SOC TOTAL</b>	<b>513</b>	<b>0</b>
<b>TOTAL REACTIONS FOR DRUG</b>	<b>41274</b>	<b>14</b>
<b>TOTAL REPORTS</b>	<b>13325</b>	
<b>TOTAL FATAL OUTCOME REPORTS</b>		<b>14</b>

The overall number of deaths due to all three jabs now stands at 1,596 when including the 28 deaths that have been reported where the brand of vaccine was not specified. ([https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/1012210/COVID-19\\_vaccine\\_brand\\_unspecified\\_analysis\\_print\\_final.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1012210/COVID-19_vaccine_brand_unspecified_analysis_print_final.pdf))

Therefore 892 more people have died due to the Covid-19 vaccine in the UK in 8 months than people who have died of Covid-19 in Scotland in 18 months.

But it's also important to remember that the [MHRA have stated just 10% of serious adverse reactions](https://www.gov.uk/drug-safety-update/yellow-card-please-help-to-reverse-the-decline-in-reporting-of-suspected-adverse-drug-reactions) (<https://www.gov.uk/drug-safety-update/yellow-card-please-help-to-reverse-the-decline-in-reporting-of-suspected-adverse-drug-reactions>) are reported to the MHRA Yellow Card scheme.

## Don't wait for someone else to report it

It is estimated that only 10% of serious reactions and between 2 and 4% of non-serious reactions are reported. Under-reporting coupled with a decline in reporting makes it especially important to report all suspicions of adverse drug reactions to the Yellow Card Scheme.

48

Therefore that official number could be as high as 15,960 meaning thousands more have died due to the Covid-19 vaccine than have died of Covid-19 in the whole of the UK.

It doesn't matter which way you look at it, the official data is now clear. The Covid-19 vaccines are more deadly than the alleged Covid-19 virus itself, and that is precisely why Public Health England refuse to publish the number of deaths that have occurred within 28 days of having a Covid-19 vaccine.
