Political Commentator Kim Iversen Unpacks 'Alarming and Shocking' COVID Data From Israel

Political talk show host Kim Iversen, who has been closely following COVID vaccine data in multiple countries, walks viewers through the data from Israel suggesting the vaccines are failing.

Political talk show host Kim Iversen, on a [segment](#) of the Kim Iversen Show Wednesday, called the latest COVID data coming out of Israel “alarming and shocking.”

Iversen reminded viewers that Israel was nearly fully vaccinated by February, after striking a deal with [Pfizer](#) to make its citizens “essentially ... a giant study group.”

“They have very high vaccination rates in the country,” Iversen said. “Kids are still not vaccinated. There are some super ultra-Orthodox holdouts, but otherwise everybody in Israel banded together and they took the Pfizer vaccine — two doses.”

But by summer, Iversen said, Israel health officials determined the vaccine had worn off. “They saw skyrocketing numbers of cases, even after they’d hit this so-called [herd immunity](#) threshold of 70%.”

At first, Iversen said, it looked as though the vaccines might at least be protecting against more severe symptoms, because for the most part, only the unvaccinated were having to be hospitalized.

“But then as time went on ... the hospitals started to fill up with fully vaccinated people,” Iversen said, “and they saw more and more cases among the fully vaccinated, and more and more of them becoming very severe to the point where the majority of their cases in the hospitals and in the ICU and those dying

"I have a whole list of countries that I've been monitoring on this," she said. "And it was really clear early on that the vaccine was not stopping the spread, but it did seem to keep people out of the hospital for a period of time."

But then Israel found the vaccine was wearing off — so they told everybody they would need a third, [booster shot](#), "in order to participate in society," Iversen said.

That seemed to work for awhile — but now cases are rising again.

"I don't know what to make of that," Iversen said. "And I'm not going to speculate. I'm just going to share the data and I'm going to keep watching that data. And we're going to see what happens. I mean, at this point, that's all we can do. All we can do is see what happens now."

Einstein famously said that the definition of insanity is repeating an action and expecting different results.

So, if after a short term dip, cases and hospitalizations shoot up again, and that has been seen multiple times in multiple countries, could it be that the virus is much, much smarter than us? Or are we simply insane in our commitment to a magic potion narrative despite evidence that vaccination as a path to normalcy is a fairy tale?

People have lost their ability to think and see evidence that is right in front of their faces. Logical thinking is now rare.

It is being proven more and more every day, by many "ethical" doctors, that with each consecutive wax job, that the individual's immunity goes **DOWN!!!!**

I don't even like going to a doctor for that reason. Why do they need so much blood? They are vampires! Over the top Radiation from xrays and 5G in hospitals is immune suppressing. Just going to see a doctor push down the immune system. Plus all Medical Universities are funded by drug companies. Doctors have no clue on toxicities of drug. All drugs cause SIDE EFFECTS. The oath they take is with the drug company not the patient. It is a RIGGED SYSTEM, like housing and most other important things we need to actually work.

If you want to ignore facts and evidence presented by real doctors and scientists, that is your choice. But don't poke fun at the rest of us who are actually interested in the truth. And what do you make of the data coming out of Israel? They had an extremely high vaccination rate. If the vaccine was effective, then why are their covid case numbers going up? Why are the fully vaccinated ending up in the hospital with severe cases of covid? Why don't you engage in some sort of meaningful discussion instead of insulting people?

If you want a real chance at surviving Covid, please search - Covid healthy diet. Stop eating REFINED GRAINS, high carbs and sugar. Switch to a low carb, high healthy fat, healthy type keto diet (lots of mixed green salads and cruciferous vogs). Take a multivitamin, vitamin D, vitamin C, and zinc. Some fermented foods don't hurt either – apple cider vinegar. This is also known as an anti-cancer diet. Your body, with this diet and intermittent fasting, will eat away any bad cells you have in your body including viruses! Autophagy. I had weird body aches and was STUNNED when I tested positive for Covid in

have thought I could have Covid.

For those of you who don't trust BIG Pharma, why would you trust BIG Food either? They are making crap food that drives up the plaque inside your veins which break off and cause micro clots with Covid. If you want to live, don't trust JUST a vaccine if you have health issues. I have been in a house with two other people that were eventually Covid positive after my own case. And I tested negative each time someone else was sick. Natural immunity really is the best! But Why take any chances. Change your diet!!!!!!!

Ronald ➔ RJ Sophia • 4 days ago • edited

The 'micro clots' may be coming from the vaccines.

Natural immunity is best, why chance a vaccine that apparently is 92% Graphene Oxide, a toxin.

I agree with much of what you wrote, but there is no test for "covid", and there is no "covid", just a wimpy bioweapon that was never a "pandemic". The 'tests', the masks and the shots are all full of toxins which are making people sick and killing them. Stay away from it all and trust your natural immune system.

agree, the tests(PCR) is the problem...the fact that they can be manipulated positive/negative depending on the cycle threshold that the company is using shows

The PCR-Test is at least 85% false-positiv!
Maybe you heard that papaya, coca-cola,
motoroil had been tested positiv! Even a test
on a car's exhaust was positive! All we have
is a Test-Plandemic!

Agree with your points...those who get the
sickest(besides the very elderly) are those
with metabolic disfunction(over weight and
obese)...
remember when this first started, experts
were saying we will ALL have to be exposed
to this virus(not going away, like the flu) but
we need to protect the vulnerable and two
weeks to flatten the curve so as not to
overwhelm hospitals...that changed to
everyone in the world needs to be vaccinated
and we are now showing that natural
immunity(after contracting the virus) like I did
a year & a half ago is more robust and
enduring against variants (the vaccines are
for an alpha variant that no longer
exists)....this should have been over long
ago...so much for trusting the SCIENCE

Nutrition is everything! Check out Anthony
William, Medical Medium. His is super clean,
only organic. NO meat, Eggs or dairy. You
don't want feed the viruses and cause
inflammation from foods you eat. Viruses do
not like antioxidants but they do love sugar.
They spray nano nonsense on clothes and
food. It not been fully tested. Very scary stuff!

Exactly, while industrially extracted seed oils only around like 150 years - omega 6 levels increased 12-fold in our bodies during this relatively short time

vegetable seed oils correlate with a lot of disease states...we need to go back to what our great grand parents used...butter, lard, tallow...these saturated fats are more stable in the body and not prone to oxidation like the polyunsaturated oils. The dogma is changing. For decades they beat on LDL as a cause for high blood pressure and cardiovascular disease...Now we are seeing that in the absence of seed oils, a high LDL is protective and shows longevity. Yet some of the biggest selling drugs are the cholesterol medications, that lower LDL(cholesterol is vital...Functions 1. Cholesterol is an important component of the cell membranes, including organelle membranes inside the cell. (The body contains billions of cells.)

Listed below are life-saving protocols links below put together by doctors who really care about saving lives. These are real doctors (read their bios on these links) experienced in treating patients and saving lives. Not those who are working in labs writing papers and not the fake media that is compromised because they take money from BIG pharma.

If you review their protocols for comparison, you'll see similarities.. including vitamin c, zinc, D3, Ivermectin, Hydroxychloroquine, etc.

So, you're trying to cover-up one of the 21st Centuries Greatest Medical Break Throughs I see i.e. You stated"Please Don't Drink Disinfectant"... e.g. Chlorine Dioxide aka MMS-Miracle Mineral Supplement, which is being used currently by over 5,000 Doctors & 35 Countries with an Efficacy Rate against Sars-Cov2 & Covid of 99%+.

You are a very disingenuous person to want to suppress such an effective treatment for this sickness, which also can Cure Cancer, AIDS, Hept B & C, Lupis, Crohn's, Lyme Disease, Malaria (in 4hrs on average), Arthritis, Autism, etc. etc. etc.

Here's a bit of Science, which verifies what I just stated & a double blind REAL saline
