—○ **Federal Govt Whistleblower Goes Public with Secret Recordings:  
'Government Doesn't Want to Show the [COVID] Vaccine is Full of Sh\*t';  
'Shove' Adverse Effect Reporting 'Under the Mat'**

**Dr. Maria Gonzales, ER Doctor, U.S. Department of Health and Human Services:** "All this is bullshit. Now, [a patient] probably [has] myocarditis due to the [COVID] vaccine. But now, they [government] are not going to blame the vaccine."

**Dr. Gonzales:** "They [government] are not reporting [adverse COVID vaccine side effects]...They want to shove it under the mat."

**Deanna Paris, Registered Nurse, U.S. Department of Health and Human Services:** "It's a shame they [government] are not treating people [with COVID] like they're supposed to, like they should. I think they want people to die."

**Jodi O'Malley, Insider and Registered Nurse, U.S. Department of Health and Human Services:** The COVID vaccine is "not doing what it's purpose was."

**O'Malley:** "I've seen dozens of people come in with adverse reactions."

**O'Malley: "If we [government] are not gathering [COVID vaccine] data and reporting it, then how are we going to say that this is safe and approved for use?"**

**O'Malley: I'm not afraid of blowing the whistle "because my faith lies in God and not man...You know, like what kind of person would I be if I knew all of this -- this is evil at the highest level. You have the FDA, you have the CDC, that are both supposed to be protecting us, but they are under the government, and everything that we've done so far is unscientific."**

**O'Malley: "At the end of the day, it's about your health, and you can never get that back -- and about your freedom, and about living in a peaceful society, and I'm like, 'no.' No. This is the hill that I will die on."**

[PHOENIX – Sept. 20, 2021] Project Veritas released the first video of its COVID vaccine investigative series today featuring an interview with U.S. Health and Human Services [HHS] insider, Jodi O'Malley, who works as a Registered Nurse at the local Indian Medical Center.

[CLICK HERE TO TWEET THIS VIDEO RIGHT NOW.](#)

O'Malley told Project Veritas founder James O'Keefe about what has been going on at her federal government facility. She recorded her HHS colleagues discussing their concerns about the new COVID vaccine to corroborate her assertions:

**Dr. Maria Gonzales, ER Doctor, U.S. Department of Health and Human Services:** *"The problem in here is that they are not doing the studies. People that had [COVID] and the people that have been vaccinated -- they're not doing any antibody testing."*

**Jodi O'Malley, Insider and Registered Nurse, U.S. Department of Health and Human Services:** *"Nope."*

**Dr. Gonzales:** *"Everybody is quiet with that. Why?"*

**O'Malley:** *"Now, you got this guy in Room Four who got his second dose of the [COVID] vaccine on Tuesday and has been short of breath. Okay? Now his BNP is elevated. D dimer elevated, ALT, all his liver enzymes are elevated. His PTPTINR is elevated."*

**Dr. Gonzales:** *"He's probably got myocarditis!"*

**O'Malley:** *"Yes!"*

**Dr. Gonzales:** *"All this is bullshit. Now probably myocarditis due to the vaccine."*

**O'Malley:** *"Right."*

**Dr. Gonzales:** *"But now, they [government] are not going to blame the vaccine."*

**O'Malley:** *"Well and you know what -- but he has an obligation to report that doesn't he? It happened right -- what is it -- sixty days after if you see anything?"*

**Dr. Gonzales:** *"They have got to."*

**O'Malley:** *"But how many are reporting?"*

**Dr. Gonzales:** *"They are not reporting."*

**O'Malley:** *"Right!"*

**Dr. Gonzales:** *"Because they want to shove it under the mat."*

O'Malley explained this conversation in detail during her interview with O'Keefe:

**James O'Keefe, Project Veritas founder:** *"In this instance with Dr. Gonzales, what patient was she referring to? Without saying the name."*

**Jodi O'Malley, Insider and Registered Nurse, U.S. Department of Health and Human Services:** *"She was referring to a thirty-something-year-old patient that had congestive heart failure."*

**O'Keefe:** *"Congestive heart failure? In that particular patient's case, it was not reported?"*

**O'Malley:** *"No."*

**O'Keefe:** *"Were there other instances that they didn't report? Or just this one?"*

**O'Malley:** *"Yeah, many."*

**O'Keefe:** "How many did you see?"

**O'Malley:** "Oh, I've seen dozens of people come in with adverse reactions [to the COVID vaccine]."

...

**O'Malley:** "So, what the responsibility on everyone is -- is to gather that data and report it. If we're not gathering [COVID vaccine] data and reporting it, then how are we going to say that this is safe and approved for use?"

The whistleblower also recorded Dr. Gonzales' disagreement with another HHS doctor pertaining to the research and reporting behind the COVID vaccine:

**Jodi O'Malley, Insider and Registered Nurse, U.S. Department of Health and Human Services:** "So how come after 18 months, we haven't had any research? Isn't that fishy to you?"

**Dr. Maria Gonzales, ER Doctor, U.S. Department of Health and Human Services:** "It does -- it is fishy."

**O'Malley:** "It's super fishy."

**Dr. Dale McGee, ER Doctor, U.S. Department of Health and Human Services:** "It's not that it hasn't been done. It hasn't been published, that's why."

**Dr. Gonzales:** "It hasn't probably been done because the government doesn't want to show that the darn [COVID] vaccine is full of sh\*t."

O'Malley spoke to Deanna Paris, who works as a Registered Nurse at the same federal government facility, to compare what they both have witnessed regarding COVID vaccine adverse effects:

**Deanna Paris, Registered Nurse, U.S. Department of Health and Human Services:** "It's a shame they [government] are not treating people [with COVID] like they're supposed to, like they should. I think they want people to die."

**Jodi O'Malley, Insider and Registered Nurse, U.S. Department of Health and Human Services:** "How many have you seen that have gotten vaccinated here?"

**Paris:** "That got sick from the side effects? A lot."

**O'Malley:** "A lot!"

**Paris:** "Have you seen it too?"

**O'Malley:** "Yeah, and I'm like, who's writing the VAERS reports?"

**Paris:** *"Nobody because it takes over a half hour to write the damn thing."*

The insider told O'Keefe what led her to blow the whistle on the federal government.

"What prompted me to do this was when I was House Supervisor one night, and one of my coworkers had taken the [COVID] vaccine two weeks ago, and she didn't want to. She went throughout this entire pandemic working in the intensive care unit, which pretty much was a COVID unit," O'Malley said.

"She didn't want to take [the COVID vaccine] because of her religious beliefs and she was coerced into taking it. It's like nobody -- nobody should have to decide between their livelihood, being 'a part of the team in the hospital,' or take the [COVID] vaccine."

O'Malley said it is more important to shine a light on corruption than to fear retaliation from the powers that be:

**James O'Keefe, Project Veritas founder:** *"What would you say to people who are in a position where they can do something?"*

**Jodi O'Malley, Insider and Registered Nurse, U.S. Department of Health and Human Services:** *"I say that we have to do something. Right now, what is plaguing this country is the spirit of fear."*

**O'Keefe:** *"Are you afraid?"*

**O'Malley:** *"It's my career, you know? It's how I help people. But am I afraid? I wouldn't necessarily say I am afraid because my faith lies in God and not man. So, I have two older kids that are on their own, and I have a twelve-year-old at home that I care for on my own, but you know, what kind of person would I be if I knew all of this -- this is evil. This is evil at the highest level. You have the FDA, you have the CDC, that are both supposed to be protecting us, but they are under the government, and everything that we've done so far is unscientific."*

**O'Keefe:** *"Are you afraid they're going to retaliate against you?"*

**O'Malley:** *"Yeah. I'm a federal employee. What other federal employees do you see coming out?"*

**O'Keefe:** *"But you put your faith in God."*

**O'Malley:** *"Amen. At the end of the day, it's about your health, and you can never get that back -- and about your freedom, and about living in a peaceful society, and I'm like, 'no.' No. This is the hill that I will die on."*

Project Veritas encourages more brave whistleblowers like O'Malley to come forward with information on the COVID vaccine by emailing [VeritasTips@protonmail.com](mailto:VeritasTips@protonmail.com).

More videos exposing government health agencies and pharmaceutical companies will be released by Project Veritas imminently. To receive these upcoming videos directly into your email inbox, [click](#)

### About Project Veritas

James O'Keefe established Project Veritas in 2010 as a non-profit journalism enterprise to continue his undercover reporting work. Today, Project Veritas investigates and exposes corruption, dishonesty, self-dealing, waste, fraud, and other misconduct in both public and private institutions to achieve a more ethical and transparent society and to engage in litigation to: protect, defend and expand human and civil rights secured by law, specifically First Amendment rights including promoting the free exchange of ideas in a digital world; combat and defeat censorship of any ideology; promote truthful reporting; and defend freedom of speech and association issues including the right to anonymity. O'Keefe serves as the CEO and Chairman of the Board so that he can continue to lead and teach his fellow journalists, as well as protect and nurture the Project Veritas culture.

Project Veritas is a registered 501(c)3 organization. Project Veritas does not advocate specific resolutions to the issues raised through its investigations. [Donate now to support our mission.](#)
