April 2022, 163 people have reported suffering total blindness due to the injection. Another 6 people have also reported central vision loss, whilst a further 4 people have reported sudden visual loss.

Twenty-one people have also reported an adverse reaction known as 'blindness transient' due to the Pfizer vaccine. This is where a person suffers visual disturbance or loss of sight in one eye for seconds or minutes at a time. And a further twenty people have reported an adverse reaction known as 'unilateral blindness'. This is where a person is blind or has extremely poor vision in one eye.

In total there have been 8,016 eye disorders reported as adverse reactions to the Pfizer jab as of 6th April 2022.

In all, when including adverse reactions reported where the brand of vaccine was not specified, there have been 24,516 eye disorders reported as adverse reactions to the Covid-19 injections, with 525 of these reactions being complete blindness.

“Fact-checkers” alongside authorities have been on the case to sweep this data under the carpet and have labelled it as unreliable. Their reasoning is that “just because someone reports the event after having the vaccine, it doesn’t necessarily mean it is due to the vaccine”.

But what they’re not telling you is that it also doesn’t necessarily mean it is not due to the vaccine, and we imagine every single person who has reported an adverse reaction would disagree with the fact checkers and authorities attempts to play down these reports.

For instance one person, who goes by the name of Louis, documented the story of his wife on Twitter in the days, weeks and months following her getting the AstraZeneca Covid vaccine.

Well there is another extremely concerning adverse reaction that has been reported to the MHRA Yellow Card scheme, one which has occurred an astronomical amount of times, and that adverse event is a stroke.

As of 6th Feb 22, the MHRA has received 786 reports of stroke due to the Pfizer mRNA injection, which is now the primary booster jab being administered to Brits, and the only jab being administered to children.

These reports include 19 reports of subarachnoid haemorrhage, which is an extremely rare type of stroke, 64 reports of cerebral haemorrhage, 61 reports of ischaemic stroke, and 487 reports of cerebrovascular accidents.

Sadly these 786 reported strokes have resulted in 65 deaths.

Unfortunately the AstraZeneca vaccine has also caused hundred of strokes. Up to 6th April 22, the MHRA has received 2,355 reports of stroke as adverse reactions to the jab resulting in 170 deaths.

The 2,355 strokes include 202 cerebral haemorrhages, 119 subarachnoid haemorrhages (supposed to be rare), 166 ischaemic strokes, and a shocking 1,369 cerebrovascular accidents.

Vision loss after stroke

What you need to know

- About one-third of stroke survivors experience vision loss.
- Most people who have vision loss after a stroke do not fully recover their vision.
- Some recovery is possible – this will usually happen in the first few months after a stroke.
- Training, equipment and home modifications can help you to live as independently and safely as possible.

Vision loss after stroke

Your vision depends on a healthy eye to receive information and a healthy brain to process that information. The nerves in the eye travel from the eye through the brain to the occipital cortex at the back of the brain, allowing you to see.

Most strokes affect one side of the brain. Nerves from each eye travel together in the brain, so both eyes are affected. If the right side of your brain is damaged, the left side vision in each eye may be affected. It is rare for both sides of the brain to be affected by stroke. When it does happen, it can result in blindness.

Why should the people of britain compensate anyone? If you want compensation, it should come from gates and all the shareholders and drs and politicians. They're the ones who did it and continue to do it even now.

With respect to the “fact checkers”, (don’t you just loath and laugh at people who design these stupid people for the first time in history because they are pumping out such heinous crimes and need protection from such idiots?). Anyway, rant not withstanding, and in respect of the painful truth you explain thus: “As you can see the misery which the fact checkers are disregarding as “not necessarily the fault of the vaccine” is very real for the people who are reporting them.” I'd just add that the graphene particles found now by so many Scientists across the world to be in the “vaccine”vials and bloods of those vaccinated, as well as appearing to be sharp, are too big to go into the smallest blood vessels. Also the clumped and mis-shapen red blood cells which join up in strings or ‘rouleaux’ are too thick to go in the smallest blood vessels of the heart and brain.

Thus the microscopic examinations can give us very good clues as to how the optic nerve, the occipital (seeing) area of the cortex and any other part of the brain subserving vision, as well as the whole body, is under huge threat from an insult from the pressence of such sinister foreign bodies and aberrant blood formations.

The attack on the whole world which was planned, first with the bioweapon, then this “vaccine”, is truly the Master plan of an organisation in league with the devil. I cannot explain it in any other way. For clues regarding the organisation, the WEF is an obvious source, for historical

His quotations will give you insight into this current group's intentions, and HG Wells' descriptions, so predictive, will make your blood run cold. I believe the contents of the injection have intentions beyond merely killing many of us. I think it's to do with keeping us under surveillance. Notice who owns Satellites and keeps accumulating Satellite connectivity. If people think the 'war' in Ukraine is a war of today they are being deflected from seeing what is happening. Wars today do not need guns and tanks on the ground! Not with Space full of Satellites and Labs full of bioweapons! Finally, we need to keep abreast of the intentions of "The Great Reset" which none of us have voted in. Thank you The Exposé. I hope and pray everyone is sending you regular money for support.
