After two years of supporting lockdowns, coercing experimental pharmaceutical injections, and pursuing other forms of relentless invasions of privacy and fundamental rights, the “Free World” has suddenly awakened to condemn the Supreme Court’s monumental decision to overturn Roe v. Wade.

Roe v Wade’s previous precedent mandated federal abortion. The new ruling now allows states to set their own abortion policies.

The decision greatly upset the global ruling class, especially the progressive globalist leaders of the “free world.” These heads of state made it known to the world exactly how outraged they were about this kerfuffle.

The news coming out of the United States is horrific. My heart goes out to the millions of American women who are now set to lose their legal right to an abortion. I can't imagine the fear and anger you are feeling right now.

No government, politician, or man should tell a woman what she can and cannot do with her body. I want women in Canada to know that we will always stand up for your right to choose.

U.K. Prime Minister Boris Johnson, another world leader who locked down his country for 2 years and forced his citizens to take experimental pharmaceutical injections, also had strong opinions on the matter.

“I’ve got to tell you I think it’s a big step backwards. **I’ve always believed in a woman’s right to choose** and I stick to that view,” Johnson said.

Will Biden's mandates work? Macron's vaccine pass gamble may hold some clues

After US President Joe Biden laid out a wide-ranging plan to tackle the worsening Covid pandemic in America with a raft of new vaccination rules last week, the big question on the minds of many is: Will mandating vaccines work? In France, it's a gamble that is beginning to pay off.

Good article- again; they are hypocrites. But the Supreme Court hasn't banned abortion, they've put the matter back into the hands of the States, where the Constitution assigned it. It is a fascinating document.
