

Letter to the South African Government

Reject the Proposed Amendments (1882, 1883, 1884, & 1885) to the National Health Act & International Health Regulations Act

Margaret Anna Alice

Aug 4

Note to my readers: When the world needed them, the people of South Africa [rose up](#) with their fellow Africans to help defeat the [proposed International Health Regulations \(IHR\) amendments](#) that would have given a [documentably accused genocidal war criminal](#) one-world dictatorial powers.

Now the people of South Africa need our help. Please see the instructions after this letter to learn how you can make your voice heard. The August 5, 2022, deadline has passed, but it doesn't hurt to submit your comments while this legislation is still pending.

“We cannot trample upon the humanity of others without devaluing our own. The Igbo, always practical, put it concretely in their proverb *Onye ji onye n’ani ji onwe ya*: ‘He who will hold another down in the mud must stay in the mud to keep him down.’”

—Chinua Achebe, *The Education of a British-Protected Child: Essays* (Kindle, paperback, hardcover, audio CD)

Not three decades after **apartheid ended**, you are considering **proposed amendments** to the **National Health Act of 2003’s 2017 regulations** that would resurrect this shameful

stain on South African history:

- **1882: Regulations Relating to the Surveillance and the Control of Notifiable Medical Conditions: Amendment** (National Health Act)
- **1883: Regulations Relating to Public Health Measures in Points of Entry** (International Health Regulations Act)
- **1884: Regulations Relating to the Management of Human Remains** (National Health Act)
- **1885: Regulations Relating to Environmental Health** (National Health Act)

“Apartness” in Afrikaans, “apartheid” is the institutionalized system of segregation. You can change the definitions of the targeted parties, but you cannot change the discriminatory rot underlying this vile legislation.

Sick Until Proven Healthy

ADV SABELO SIBANDA MESSAGE TO THE PEOPLE

(long version [here](#))

The People’s Lawctivist **Sabelo Sibanda** explains that under the proposed amendments:

“These regulations basically declare a scenario where everyone will end up in one of three categories where you are either deemed to be a case, or you are considered a suspect, or, alternatively, you are considered as one who has been in contact with someone who is a case.

“And once you fall into any one of those three categories, this is what this means to you. Government says, ‘You may not refuse to be medically examined,’ whereby the medical examination process is whatever government will determine.

“Second to that, you may not refuse to be put in quarantine or put in isolation. And the requirements for quarantine and isolation are such that the majority of the people of South Africa will not be able to self-quarantine so they have to be put in a state institution.

“Further to that, and most critical, is that you may not refuse to take whatever medication that the government says you should take. Your freedom—which is supposed to be guaranteed and protected by the same act in as far as the right to be informed—is taken away. You are caught in a situation whereby government has full control.

“Once you are put in this isolation space, this quarantine space, you don’t have the ability to determine when and how you get out. It will be up to government to decide.

“So now the country of South Africa will be under a permanent state of disaster where masking will be permanent, where social distancing is permanent, through the National Health Act.”

In case you’ve forgotten what it looks like for your government to discriminate against citizens under the guise of a “state of emergency” and to demand people’s papers, here are a couple of reminders:

Today, that passport looks like a QR code on your phone.

Please take a few moments to read the following articles to understand why there is no circumstance under which it is ethically or morally acceptable to deprive individuals of their freedoms and human rights in the name of the “public good,” which can be defined according to the whims of despots and demagogues:

Margaret Anna Alice Through the Looking Glass

Letter to the New York State Department of Health

“I think that New York is the new model for the new concentration camp, where the camp has been built by the inmates themselves, and the inmates are the guards, and they have this pride in this thing they’ve built. They’ve built their own prison. And so they exist in a state of schizophrenia where they are both guards and prisoners, and as a result, th...

Margaret Anna Alice Through the Looking Glass

Letter to the UK Government

“This is the story of a duel. It is a duel between two very unequal adversaries: an exceedingly powerful, formidable, and ruthless state and an insignificant, unknown private individual. The duel does not take place in what is commonly known as the sphere of politics; the individual is by no means a politician, still less a conspirator or an enemy of th...

And if you want to understand what it feels like to be institutionalized and have medication forced on you against your will, here's a preview of the world you would be creating:

One Flew Over the Cuckoo's Nest Medication Scene (Hi De...

Nurse Pilbow: Mr. McMurphy?

McMurphy: Huh?

Nurse Pilbow: Your medication.

McMurphy: What's in the horse pill?

Nurse Pilbow: It's just medicine, it's good for you.

McMurphy: Yeah, but I don't like the idea of taking something if I don't know what it is....

Nurse Ratched: If Mr. McMurphy doesn't want to take his medication orally, I'm sure we can arrange that he can have it some other way.

The people of South Africa poured decades of passion, blood, and song into eradicating apartheid:

Trailer Amandla!

Do not let that effort be for naught. As Chinua Achebe says:

“The damage done in one year can sometimes take ten or twenty years to repair.”

Do not let fear, hatred, panic, and intolerance win. Cast out those totalitarian demons and save your people by rejecting amendments 1882, 1883, 1884, and 1885.

“Yet men were afraid, with a fear that was deep, deep in the heart, a fear so deep that they hid their kindness, or brought it out with fierceness and anger, and hid it behind fierce and frowning eyes. They were afraid because they were so few. And such fear could not be cast out, but by love.”

—Alan Paton, *Cry the Beloved Country* ([Kindle](#), [paperback](#), [hardcover](#), [audiobook](#))

Please help me get the word out to save South Africans. Every share helps immensely 🙏

Are you willing to spend 16.4 cents/day (annual) or 19.7 cents/day (monthly) to help me continue fighting tyranny and democide?

Action Alert: Save South Africans from Medical Apartheid!

There are numerous opportunities to voice your opposition to the proposed National Health Act amendments—let's try to hit all of them to ensure we achieve maximum impact. Please complete the following forms and include a link to this letter if desired.

- 1) [Dear South Africa](#)
- 2) [The Red List](#)

- 3) **Shifters Voice** (be careful to select “No” for each amendment as it is non-intuitively listed before “Yes”)
- 4) **Natural Solutions Foundation**
- 5) Submit **public comments** to the South African government for **1882, 1883, 1884, and 1885**
- 6) Email **minister@health.gov.za, legalreviews@health.gov.za, daniel.nkuna@health.gov.za, tsakani.furumele@health.gov.za, registration2@pprotect.org, info@sahrc.org.za**

Take Back Power with Shabnam Palesa Mohamed

ACTION ALERT: Clarion call for international solidarity with South Africa against tyrannical health regulations

South Africa faces one of the biggest challenges to human rights. The Minister of Health in South Africa, Dr. Joe Phaahla, proposed controversial amendments to National Health Act regulations that will become a permanent replacement to South Africa's equally controversial Covid-19 state of disaster management regulations. These proposed amendments will gi...

And watch this video featuring members of the newly launched [Children's Health Defense African Chapter](#):

EMLCT has also compiled a [handy list of resources](#).

As I have [previously discussed](#), Africa is playing a key role in our [efforts to #StopTheWHO](#), and I encourage you to follow [Shabnam Palesa Mohamed](#) and [Dr. Tess Lawrie](#) to keep apprised of action steps from the newly launched [African Sovereignty Coalition](#):

Take Back Power with Shabnam Palesa Mohamed

Launch of the African Sovereignty Coalition - Saturday 18 June 2022 - 1pm GMT

The African Sovereignty Coalition (ASC) formally launches Saturday 18 June 2022, 1pm GMT / 3pm CAT / 4pm EAT / 2pm BST. The motivation for the ASC launch includes resistance to undemocratic developments that threaten the sovereignty of Africa and all nations. These threats are being driven by the World Health Organisation, and by extension, the United N...

Dissident Dialogues Launched

I've kicked off my new interview series, Dissident Dialogues, with peerless satirist [CJ Hopkins](#), and CJ has delivered dazzlingly. Paid subscribers enjoy access to the interview as it unfolds in the "rolling" version:

Margaret Anna Alice Through the Looking Glass

Dissident Dialogues: CJ Hopkins (Rolling)

Dissident Dialogues Welcome to the inaugural edition of Dissident Dialogues! As a paid subscriber, you enjoy immediate access to this interview as it's unfolding in real-time ("rolling" means it's a work in progress). I will publish each new question and answer here as we progress through our conversation (likely over the course of several weeks). Once we arrive at a stopping point, I will publish a final version, which will be available to the public...
