

# NZ's COVID Vaccine Massacre Exposed

The NZ Government's Complicity in Mass Murder | By Kiwi4Justice

Mass murder. A massacre. It is the only description that is worthy of the bombshell evidence from a NZ government whistleblower in [Liz Gunn's M.O.A.R \(Mother Of All Revelations\)](#). It is a tragedy of unthinkable magnitude. The evidence that has now come forward from this whistleblower, and others, shows us that the NZ government's roll out of the COVID vaccine was not just a crime, it was a massacre. The evidence and implications are inescapable and difficult to comprehend. But what is even more disturbing is that this was no accident. It was, and continues to be, willful mass murder.

The scale of the death and injury for the people of NZ from the COVID-19 vaccine that has now been proven beyond any doubt is challenging to think about. It is devastating confirmation of what so many people in NZ and around the world have been shouting from the rooftops for so long, but who have been ignored and ridiculed by the mainstream media and the government. It is a sad and sorry vindication for those 18,000 Kiwis who set up camp in their tents and cars in front of Parliament in February 2022, who were ignored, demonized, and labelled a 'river of filth' by those who are culpable for this terrible crime.

When Liz Gunn forwarded me her interview with the whistleblower and his evidence in advance of the M.O.A.R drop to get an ‘emotional reality check’ on what was coming, I thought I was ready for it. But as a patriotic Kiwi who loves his country it was difficult to mentally and emotionally process what Liz and the whistleblower were showing me. To put the scale of this massacre in some sort of perspective, the number of COVID-19 vaccine deaths in NZ now shown by this evidence is thirteen times the number of NZ deaths at Gallipoli. Gallipoli x 13. From the time the vaccine was rolled out in NZ it has been the equivalent of the Christchurch massacre nearly every single day since. Expert statisticians here in NZ and abroad have studied the data and concluded that the probability of these deaths not being from the COVID-19 vaccine are 100 billion to one.

## Daily New Deaths in New Zealand

In just one particular vaccination centre in Invercargill, 51 people were vaccinated within the space of just two hours. All 51 are now dead. Out of the 837 people who were vaccinated at another vaccination centre, 253 of them are now dead. 30% of everyone who was vaccinated at that centre are now dead. At another vaccination centre, of the 923 people vaccinated there, 276 are now dead. There were numerous vaccination centres around the country that had mortality rates at this sort of level of 30%. This is compared to the normal average mortality rate of just 0.75%, which is what we should be seeing. The data also shows how many fatalities were linked to each individual vaccinator. One vaccinator had a mortality rate of 25%. One in four people that got the vaccine from that vaccinator is now dead. Other vaccinators were similar. Their vaccine batches were literally death batches. These numbers are simply off the scale and impossible to interpret any other way than a vaccine massacre.

## 10 Worst Vaccinator Death Ratios

VACCINATOR NAME	TOTAL VACCINATED	DEATH COUNT	RATIO PERCENTAGE
V1	246	60	24.39%
V2	437	100	22.88%
V4	442	68	15.38%
V6	1049	148	14.11%
V8	854	101	11.83%
V10	959	101	10.53%

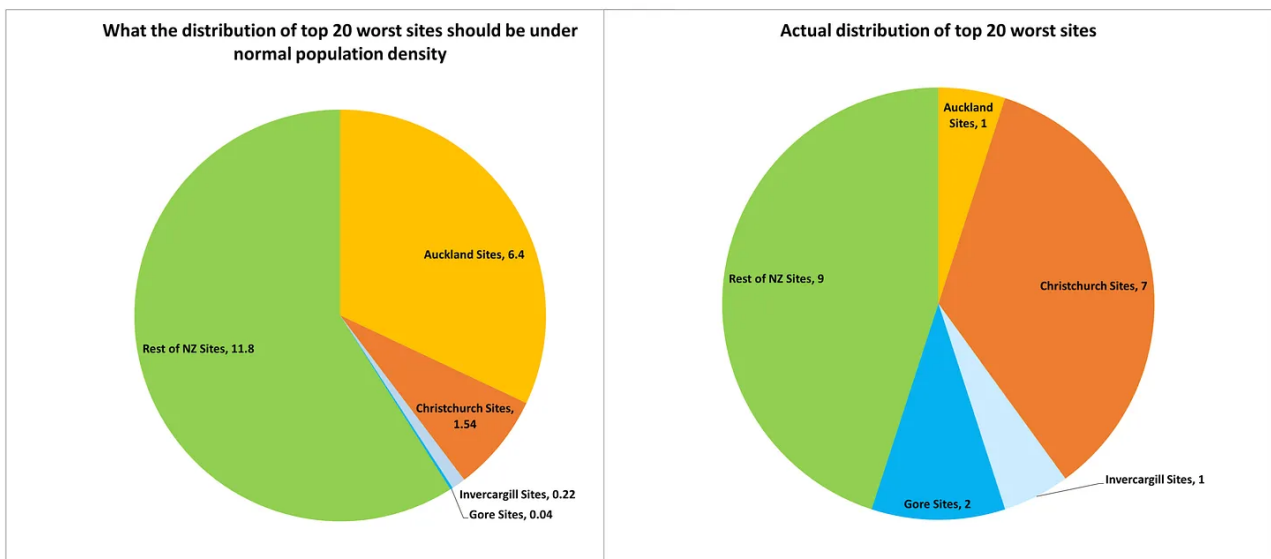

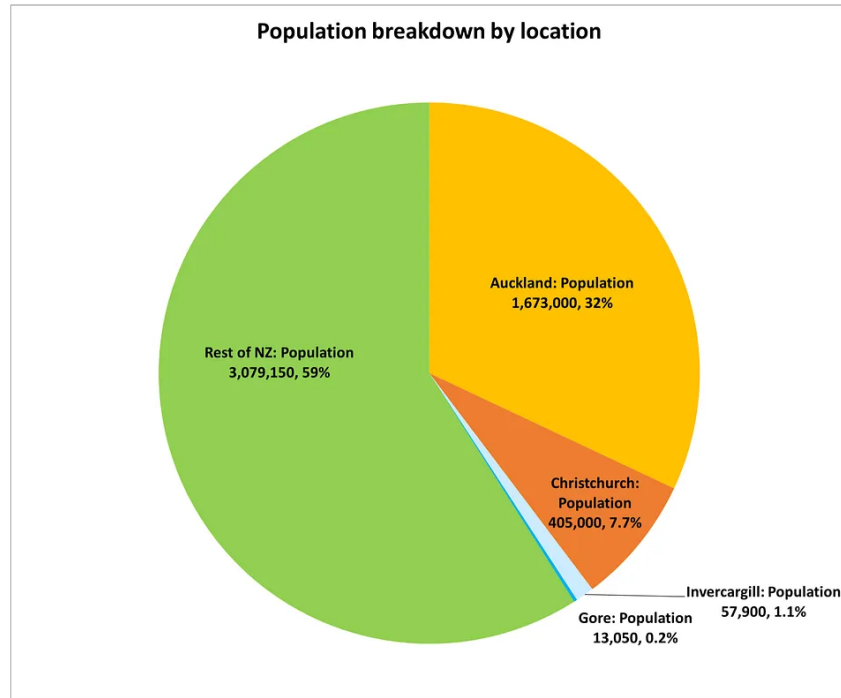

Then there is the huge bias of number of deaths in the South Island versus the North Island. Of the top 20 most deadly vaccination centres in the country, 10 out of those 20 were in Christchurch alone, and two of them (10% of the national total) were in tiny little Gore. Meanwhile only 2 out of 20 were in Auckland where one third of the total population is. This should be statistically impossible by population unless specific vaccine batches were a whole lot more deadly than other batches. This is exactly what the data shows. The data shows a very clear picture of certain vaccine batches being 'death batches', with other batches much less so. This should not happen unless something very strange and very abnormal is occurring with this vaccine. It requires extremely serious investigation.

## 10 Worst Sites for Death

SITE	SITE TOTAL DEATH COUNT	TOTAL SITE VACCINATIONS	RATIO (AVG NZ DEATH RATE = 0.75%)
Te Hopai Home & Hospital	61	191	31.94%
Health Central VC Offsite Activity	13	42	30.95%
Queens Park Medical - Outreach 1	253	837	30.23%
Residential Eldercare Services Ltd (RESL)	276	923	29.90%
Barrington Covid Vaccine Hub - Mobile	23	81	28.40%
Life Pharmacy Ashburton Mobile Team	142	526	27.00%
Geraldine Pharmacy Mobile Site	32	121	26.45%
The Doctors Christchurch South - Mobile	12	48	25.00%
Shirley Medical Centre - Mobile	4	16	25.00%
Oamaru Doctors - offsite	28	118	23.73%

The whistleblower has unique access to the data in question. He designed and built the database for the NZ government, specifically for the COVID-19 vaccine. It is official government data and it includes extremely detailed COVID-19 vaccine data for 2.2 million Kiwis. The whistleblower watched in horror over a two-year period as the death data escalated in front of his eyes, until he felt he had to step forward to expose it. For that, NZ must wholeheartedly applaud and thank him for his courage and morality. It is no small thing that he has done coming forward like this. Sadly, being a whistleblower is a very dangerous thing to do in today's world of Deep State corruption and criminality. But what the whistleblower was looking at in front of him on a daily basis was not just faceless numbers and statistics. He was looking at enormous lists of names in certain places and certain times. Names of people who are not here anymore. Names of real people with real families. Human lives, not numbers. It was too much. He says there are just two words for why he had to come forward. *Never Again.*

As horrendous as this is, the most devastating point that the people of NZ need to understand is that this enormous number of deaths were not due to a very unfortunate and unforeseen outcome of a well-intentioned government health strategy. No, these deaths were the result of willful complicity in mass murder. These are very difficult words for people to hear, but the evidence is unfortunately incontrovertible. The NZ government had full foreknowledge of what the outcome would be of the COVID-19 vaccine. They had all the

information and data well in advance of their massive nationwide roll out of the COVID-19 vaccine. They had clear evidence showing them exactly what would happen if they went ahead. They knew that the Pfizer COVID-19 vaccine would cause huge numbers of injury and death. They were also advised by both the NZ Justice Department and NZ Medsafe that their proposed vaccine mandates could not be legally justified. They went ahead anyway. They signed their contract with Pfizer, they trumpeted the COVID-19 vaccine to the whole country as 'safe and effective', and then they forced it onto the population through their illegitimate, brutal mandates that deliberately split NZ society in two through medical apartheid.

Through an OIA (Official Information Act) request from a doctor in NZ, there is confirmation in writing from NZ Medsafe that they had possession of the initial Pfizer safety data for the Pfizer COVID-19 vaccine months before the government began their nationwide roll out of the COVID-19 vaccine in mid-2021. That initial Pfizer data showed absolutely devastating outcomes in terms of numbers of serious injury and fatalities. That data was so bad that the FDA (Food and Drug Agency), who had given the official authorization for the Pfizer COVID-19 vaccine, attempted to have it legally concealed from the public for 75 years. Yet despite having this horrific safety data, the NZ government not only told the NZ public that the COVID-19 vaccine was absolutely safe and effective, but they went ahead with the mandates and vaccine passports to effectively force the vaccine onto as many of the NZ population as possible. All done with full knowledge of what the deadly impact would be.

As part of this process, the NZ government signed a contract with Pfizer for the provision and distribution of the COVID-19 vaccine in NZ. We know that in the same contract that Pfizer signed with the South African government (now been made public), Pfizer clearly stated that they could not confirm the long-term safety and effectiveness of the COVID-19 vaccine, and therefore they required to be legally indemnified against all liability for any injury or death from the vaccine. It is an almost certainty that exactly the same statement was in Pfizer's contract with the NZ government, and yet the mantra of 'safe and effective' was pumped out day after day from the government's 'single source of truth'. Quite incredibly, the government's 'safe and effective' message is still being vigorously

pushed out across the country even now. Even with all the deadly evidence to the contrary clear for people to see. It would seem they simply don't care.

In addition to this, during the roll out of the COVID-19 vaccine, the NZ government, and associated agencies, actively prevented NZ doctors and health practitioners across the country from raising their very valid concerns about the safety of the COVID-19 vaccine to their patients in order for them to be able to fulfil their Hippocratic Oath of informed consent and 'do no harm'. Any doctors or health practitioners who attempted to raise concerns or ask questions about the safety of the COVID-19 vaccine were threatened with loss of medical license and/or loss of job. In some cases, those threats were implemented. A climate of fear was deliberately created for doctors and health practitioners across NZ to prevent any push back against the mass roll out of the vaccine. This led to the formation of the organization NZDSOS (NZ Doctors Speaking Out with Science).

This new evidence from the whistleblower also shows a disturbing pattern of basic medical ethics and medical processes being abandoned, with vaccine clinics pushing through patients like a McDonald's drive through in a 'dash for cash'. Informed consent is one of the most important aspects of the Hippocratic Oath and 'first do no harm'. With this data showing patients being rushed through vaccine clinics at rates of sometimes 30 people per hour, where were the conversations with each patient outlining risk factors and personal medical history that could make a person more at risk from the vaccine? When these people were rolling up their sleeves were they being informed that the official Pfizer safety data had lists of adverse reaction covering 9 pages, and that there were 1,223 deaths from the initial trials? This is information that the NZ government had months before the vaccine roll out began. This is not negligence, it is criminal.

## 10 Worst Sites for

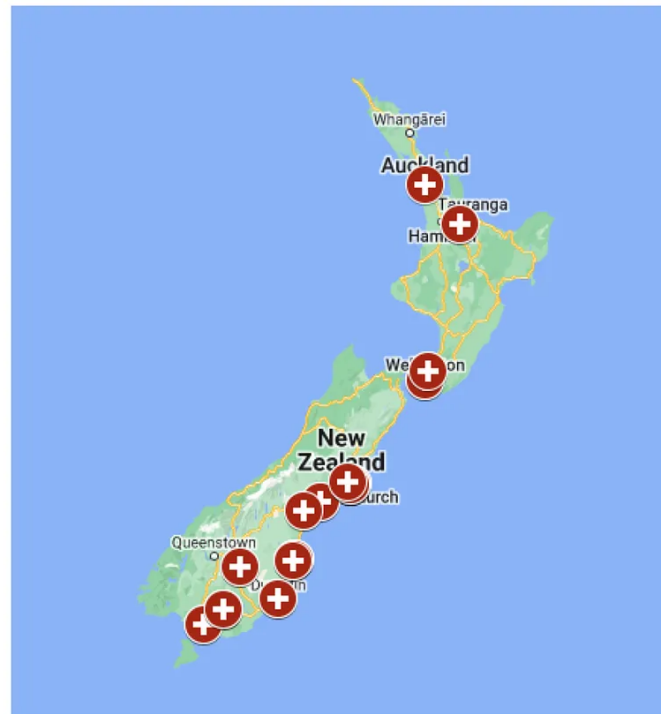

Databases

BATCH ID	TOTAL VACCINATED	DEATH COUNT	RATIO PERCENTAGE
1	711	152	21.38%
8	221	38	17.19%
3	310	48	15.48%
4	364	37	10.16%
6	1006	101	10.04%
2	1018	98	9.63%
7	38	3	7.89%
72	5882	278	4.73%
62	18173	831	4.57%
71	11019	498	4.52%
<b>CHANCES OF THESE BATCHES NOT BEING A KILLER ARE 100 BILLION TO ONE!</b>			

As well as the evidence of tens of thousands of deaths that this new whistleblower evidence is now showing us, there is also much additional evidence of the huge scale of injury and death caused in NZ. We have confirmation through Stats NZ of an enormous increase in excess deaths beginning from the time the vaccine campaign began. We also have a huge and historically unprecedented number of serious vaccine injuries registered on the NZ Medsafe database, and we have extremely alarming evidence brought forward from multiple Funeral Directors in NZ in relation to the numbers of deaths, the causes of death, and the horrific symptoms being seen in many of those deaths. It is not only the huge number of deaths that we now know about. The massive number of serious and life changing injuries is also difficult to comprehend. As a minimum it is in the hundreds of thousands of New Zealanders.

Now we can see why our hospitals, emergency services, and [Funeral Directors](#) across the country have been beyond bursting point the last two years.

In February 2022, the NZ public stood up against this crime against humanity with the largest public protest in NZ history. With 18,000 people camped in their tents and cars in front of NZ Parliament, all 120 sitting MPs signed a joint agreement that no MP would engage with or speak with those protestors. Instead, the protestors were labelled by the government as a 'river of filth' and demonized by mainstream media.

Both the NZ Bill of Rights and the 1947 Nuremberg Code make it a crime to force or coerce a medical procedure onto a person. Not only were the people of NZ forced or coerced into taking this experimental medical procedure, but the NZ government knew full well that this particular medical procedure had deadly and horrific outcomes on a very large scale. The NZ government went to great lengths to make sure the people of NZ were not able to be made aware of that known danger, and they went to even greater lengths to force as many of the NZ public as possible to take it. While at the same time they made themselves exempt from having to take it.

It doesn't seem possible that this could have happened in the country that I grew up in. This is NZ's darkest hour. But we have to face up to it together with strength and unity, which has always been the bedrock of our country. NZ was brutally and intentionally split apart through medical apartheid and medical tyranny. NZ now must come together as Kiwis united around what we now know. We are all victims of this crime.

This mass killing by the NZ government, and others, was willful. It wasn't an unfortunate accident. 'Two shots for summer' was the shot that will be heard around the world. The enormity of the crime against the people of NZ cannot be overstated. It was a massacre.
