The conference was originally scheduled to take place in the Italian parliament but was moved to the next-door Capranichetta Conference Room. According to Professor Norman Fenton (https://wherearethenumbers.substack.com/p/20-hours-in-rome-challenging-the), who was one of the experts who gave a presentation, the room was completely full with a mix of politicians, doctors, journalists and researchers.

Dr. Meryl Nass gave two presentations. One was on the World Health Organisation's ("WHO's") intentions of proliferating biological weapons. The other described the soup of lies and misdirections that is enabling WHO to even propose its amendments to the International Health Regulations ("IHR") and its Pandemic Treaty, let alone think they will be adopted.

Dr. Nass is a physician and researcher who proved the world's largest anthrax epidemic was due to biological warfare. She revealed the dangers of the anthrax vaccine (https://anthraxvaccine.blogspot.com/). Her license was suspended for prescribing covid medications and "misinformation." She is the founder of Door to Freedom (https://doortofreedom.org/about/), an online collection of information to help us get our rights and freedom back.

Dr. Nass has uploaded slides from her two presentations on her Substack page HERE (https://merylnass.substack.com/p/my-2-talks-in-rome-yesterday-the) and an agenda for the event HERE (https://merylnass.substack.com/p/rome-italy-an-international-conference).

The following is Dr. Nass' second presentation titled 'What is really going on with the WHO?' which also included an overview of the risks of the proposed IHR amendments and Pandemic Treaty.

In her presentation above, Dr. Mery Nass explained that the proposed Pandemic Treaty and IHR amendments did not start in a vacuum. “This is a logical conclusion of what’s been going on for the last four years and longer,” she said.

Dr. Nass began by describing the constant lies we have been told over the years one of them being the origin of SARS-CoV-2.

As evidenced by the genetics, SARS-CoV-2 was clearly made in a laboratory, she said. But “we are still being told that pandemics come from the spillover from animals to humans when that is almost never true.”

Why did they cover up the lab origin of the virus and insist that SARS-CoV-2 had natural origins?

“There were many reasons but I believe primary among them is the fact that they needed to insist this was natural origin in order to blame human activity for the pandemic to support the climate change agenda and to justify this crazy concept of One Health (<https://expose-news.com/?s=%22One+Health%22>),” Dr. Nass said.

Because of critical hidden agendas

- It shielded him from blame for paying for Wuhan research
- It got his agency lots more money to fight pandemics
- It was critical to support the **Biosecurity Agenda**
- The natural origin story could be spun to support the **climate change** narrative
- It served to **justify the One Health agenda**
- It was used to **blame overpopulation and human activity for pandemics**
- It **justified censorship**: 'conspiracy theories' interfered with collaboration with China on the pandemic

Very well planned, no?

Children's Health Defense: Perspectives of the WHO | From Advisory Body to World Government? (timestamp 7:15:45)

Climate change and/or anthropogenic global warming (https://expose-news.com/?s=%22anthropogenic+global+warming%22) is not the only ideology they are using to herd us into the future they have chosen for us. Others include identity politics (https://expose-news.com/?s=%22identity+politics%22) and critical race theory (https://expose-news.com/?s=%22critical+race+theory%22). But the ideology that climate change and wanton human activities cause pandemics is very important, Dr. Nass said. "I want you to think about that."

Dr. Nass has collected about 20 articles from corporate media and science journals that say climate change is causing pandemics. In her presentation at the CSMI conference, she displayed images of some of them to demonstrate her point. One of the images she shared was from a Guardian article published on 25 March 2020:

Leading scientists also said the covid-19 outbreak was a "clear warning shot", given that far more deadly diseases existed in wildlife, and that today's civilisation was "playing with fire." They said it was almost always human behaviour that caused diseases to spill over into humans.

Coronavirus: 'Nature is sending us a message', says UN environment chief, The Guardian, 25 March 2020

This didn't start yesterday, Dr. Nass said. In his book 'Technocracy: The Hard Road to World Order (https://www.technocracy.news/product/technocracy-the-hard-road-to-world-order)', Patrick Wood shows how some of these concepts began in the 1930s.

The crazy policies we are experiencing now did not just come into being out of nowhere

As Patrick Wood, a lifelong student of technocracy and globalism explains in **Technocracy, the Hard Road to World Order**, the roadmap to use climate change as the hook to bring about sweeping changes in the world was laid out decades ago:

- Gro Harlem Brundtland's UN Commission issued Our Common Future in 1987, which led to **Agenda 21**
- Christiana Figueres, head of the UN Climate Change Convention said in Feb. 2015, "this is probably the most difficult task we have ever given ourselves, which is to intentionally transform the economic development model, for the first time in human history."
- UN Sustainable Development Summit Sept. 2015: **Agenda 2030**
- UN **Paris Agreement on Climate Change** Nov.-Dec. 2015
- Habitat III in Quito, Ecuador Oct. 2016: the New Urban Agenda and **Smart Cities**
- **NONE OF THESE WERE DEMOCRATICALLY SELECTED OR VOTED ON BY THE PUBLIC**

She explained that there have so far been eight different drafts or versions of the proposed Pandemic Treaty. From one version to another, many things have stayed the same while others are "moving in and out."

Note: Dr. Nass gave her presentation before the latest draft was released, which we described in an article yesterday (https://expose-news.com/2024/04/20/latest-pandemic-treaty-draft-has-gaping-holes/).

Using the versions she had seen, Dr. Nass selected some of the particularly egregious provisions that have appeared in most of them.

11

Children's Health Defense: Perspectives of the WHO | From Advisory Body to World Government? (timestamp 7:20:03)

Many of the versions of the Treaty state that nations are required to pass laws or create additional administrative processes so that unlicensed vaccines and drugs can be rolled out to their populations.

This requirement is in both the Treaty and the IHR amendments, Dr. Nass said.

The One Health (https://www.onehealthcommission.org/en/why_one_health/what_is_one_health/) approach has been in every version of the Treaty.

“[One Health] is a bizarre concept that makes no sense except as a method to gain control over the entire world and its resources,” Dr. Nass said.

“What it says is that health can't just be considered to be a human issue but you have to include animals, plants and ecosystems when you talk about health. And that's everything in the world if you think about it. And all of those could be potentially managed by the World Health Organisation,” she added.

Beginning at timestamp 7:23:47 (https://rumble.com/v4q976k-perspectives-of-the-who-from-advisory-body-to-world-government-apr.-19.html?start=26627), Dr. Nass briefly describes what they say One Health is and the history of the One Health concept.

Human rights have been removed from the IHR amendments. But have been “put in and then out” of the Treaty.

Why would the phrase “with full respect for the dignity, human rights and fundamental freedoms of persons” be removed? It can only be that they intend to bring about the end of democracy, Dr. Nass said.

The IHR amendments expand the authority of WHO. In the current IHR, WHO's responsibilities are limited to responding to public health risks. The amendments expand WHO's involvement to all risks that have the **potential** to affect public health.

Alarmingly, Article 43 of the proposed IHR amendments states that WHO has the right to withhold medications from people during a declared pandemic. “No more ivermectin or hydroxychloroquine next time, globally,” Dr. Nass warned.

WHO is not an honest broker, Dr. Nass said. “Its pandemic plans are built on lies and misdirection.”

1. No sovereignty is ceded to the WHO? — yet the WHO will give binding orders to nations and require them to pass laws to carry out the orders, **a clear transfer of sovereignty** (IHR Article 1)
2. "Regulatory strengthening" is actually **regulatory weakening** (Treaty Article 14)
3. "Managing liability" is actually **removing liability** for warp speed vaccines (Treaty Article 15)
4. The WHO promises "**universal health coverage**" (insurance policies to be purchased) and hopes we misinterpret it as medical *care* (Treaty Article 1)
5. The WHO promises unfettered access to information, then **demands nations censor "infodemics" and "misinformation"** (Treaty Articles 9, 18), (IHR Article 44)
6. Pandemics are much more likely to come from the labs the WHO demands every nation construct to study PPPs and from the **sharing of PPPs** (Treaty Article 12 and the *Select Agent* yearly reports)
7. "**One Health**" is a Trojan horse designed to place everything in the world under the WHO's authority (Treaty Article 6)
8. **Human rights, dignity and freedom of persons have been discarded** (IHR Articles 2 and 3)
9. The **WHO can withhold medications** it deems "disproportionate or excessive" (IHR Article 43)

Bird Flu as an Example of Things to Come

"As these two documents of the WHO get close to being possibly adopted or approved in some way, the fears about bird flu (https://expose-news.com/?s=%22Bird+flu%22) are ramping up in the United States," Dr. Nass said.

On 5 April, the US Centres for Disease Control and Prevention ("CDC") issued a health advisory (https://emergency.cdc.gov/han/2024/han00506.asp) about a person in Texas who tested positive for bird flu. This was the second person to test positive for bird flu in the United States. The first case was reported in April 2022 in Colorado.

Related: Bird flu does not transmit to humans; if it does it will be because it has been engineered in a lab (https://expose-news.com/2024/04/16/bird-flu-does-not-transmit-to-humans/)

Dr. Nass believes the CDC's health advisory on 5 April demonstrates that they are on the lookout for more human cases because they want to be able to

However, Dr. Luciana Borio, a former FDA official, questioned the vaccines' potency. The vaccine's two-dose regimen, which the FDA approved in 2007, produced antibody levels expected to reduce the risk of getting avian flu by 45%.

What's important to note, Dr. Nass said, is that Marks said there's a "low threshold to pull the trigger" on the bird flu vaccines.

"Just because of being on edge from covid, there are a lot of people looking at what's going on here, and there's probably a pretty low threshold to pull the trigger here," he said.

"In other words, he is ready to vaccinate people with these already licenced bird flu vaccines for a disease that has killed, in over 20 years, less than 500 people in the world (that we know of) – that's less than 25 a year in the world – that has never killed an American, that has caused something like 800-900 cases in the world, ever (that we know of)," Dr. Nass said.

During the clinical trial of AUDENZ, one of the bird flu vaccines licenced in the US, 1 in 200 people who were vaccinated died. Compared to the placebo group where 1 in 1,000 died.

"This is the vaccine [Marks has] got a low threshold to pull the trigger on for bird flu," Dr. Nass said.
