

This really is World War III

It's Team Tyranny vs. Team Freedom in the fight of our lives

I've seen some crazy things over the last few years but this is off-the-charts insane.

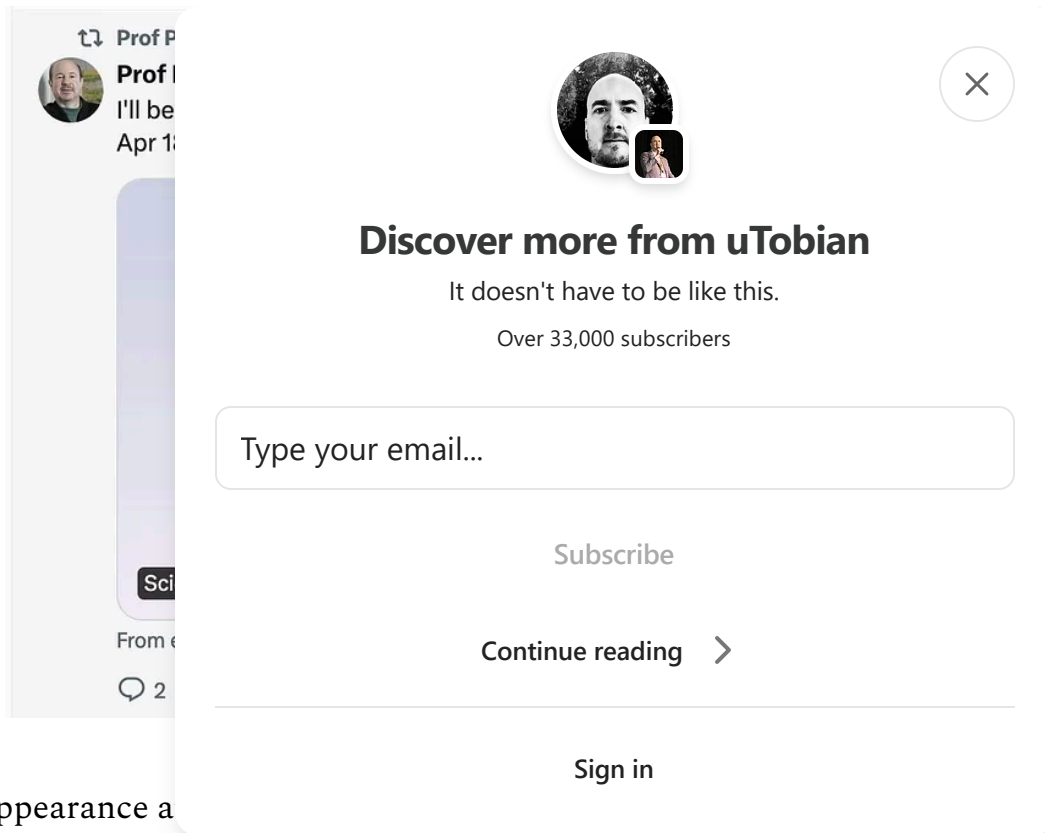

Last week, Michael E. Mann spoke at the [EcoHealth Alliance: Green Planet One Health Benefit 2024](#). Just to recap who each of these players are:

- Michael E. Mann is the creator of the “hockey stick graph” that has driven the global warming debate for the last 25 years.
- EcoHealth Alliance is the [CIA cutout](#) led by Peter Daszak that launders money from the NIH to the Wuhan Institute of Virology to create gain-of-function viruses (including SARS-CoV-2 which killed over 7 million people).
- “One Health” is the pretext the World Health Organization (WHO) is using to drive the Pandemic Treaty that will vastly expand the powers of the WHO and create [economic incentives](#) for every nation on earth to develop new gain-of-function viruses.

So a leader in the global warming movement spoke at an event to raise money for the organization that just murdered 7 million people and the campaign that intends to launch new pandemics in perpetuity to enrich the biowarfare industrial complex.

And then just for good measure, Peter Hotez reposted all of this information on Twitter, I imagine in solidarity with all of the exciting genociding going on.

Mann's appearance a _____ n years in the making. Serious and thoughtful people in the environmental movement tried to address industrial and military pollution for decades. Now their cause has been co-opted

by big tech and other corporate actors with malevolent intentions — and the rest of the environmental movement has gone along with this, apparently without objection. So we are witnessing a *convergence* between the global warming movement, the biowarfare industrial complex, and the WHO pandemic treaty grifters.

I wish it wasn't true but here we are.

Before I go any further I need to make one thing clear: the notion that pandemics are driven by global warming is complete and total bullsh*t. The evidence is overwhelming that pandemics are created by the biowarfare industrial complex including the 13,000 psychopaths who work at over 400 U.S. bioweapons labs (as described in great detail in [The Wuhan Cover-Up](#)).

Unfortunately “global warming” has become a cover for the proliferation of the [biowarfare industrial economy](#).

Mann's appearance at an event to raise money for people who are clearly guilty of genocide (and planning more carnage) made me realize that this really is World War III. They are straight-up telling us who they are and what they intend to do.

The different sides in this war are not nation-states. Instead, Team Tyranny is a bunch of different business interests pushing what has become a giant multi-trillion dollar grift. And Team Freedom is ordinary people throughout the world just trying to return to the classical economic and political liberalism that drove human progress from 1776 until 2020.

Here's how I see the battle lines being drawn:

TEAM TYRANNY

Their base: Elites, billionaires, the ruling class, the biowarfare industrial complex, intelligence agencies, and bougie technocrats.

Institutions they control: WEF, WHO, UN, BMGF, World Bank, IMF, most universities, the mainstream media, and liberal governments throughout the developed world.

Economic philosophy: The billionaires should control all wealth on earth. The peasants should only be allowed to exist to serve the billionaires, grow food, and fix the machines when necessary. Robots and Artificial Intelligence will soon be able to replace most of the peasants.

Political philosophy: Centralized control of everything. Elites know best. The 90% should shut up, pay their taxes, take their vaccines, develop chronic disease, and die. High tech global totalitarianism is the best form of government. Billionaires are God.

Philosophy of medicine: Allopathic. Cut, poison, burn, kill. Corporations create all knowledge. Bodies are machines. Transhumanism is ideal. The billionaires will soon live forever in the digital cloud.

Their currency: For now, inflationary Federal Reserve policies. Soon, Central Bank Digital Currency (CBDC) that will put the peasants in their place once and for all.

Policy vehicles to advance their agenda: One Health; WHO Pandemic Treaty; social credit scores; climate scores; vaccine mandates/passports; lockdowns and quarantine camps; elimination of small farms and livestock; corporate control of all food, land, water, transportation, and the weather; corporate control of social movements; and 15-minute cities for the peasants.

Military strategy: Gain-of-function viruses, propaganda, and vaccines.

TEAM FREEDOM

Our base: The medical freedom movement, Constitutionalists, small “l” libertarians, independent farmers, natural meat and milk producers, pirate parties, natural healers, homeopaths, chiropractors, integrative and functional medicine doctors, and osteopaths.

Aligned institutions: CHD, ICAN, Brownstone Institute, NVIC, SFHF, the RFK Jr. campaign, the Republican party at the county level...

Economic philosophy: Small “c” capitalism. Competition. Entrepreneurship.

Political philosophy: Classical liberalism. The people, using their own ingenuity, will generally figure out the best way to do things. Decentralize everything including the internet. If the elites would just leave us alone the world would be a much more peaceful, creative, and prosperous place. Human freedom leads to human flourishing.

Philosophy of medicine: Nature is infinite in its wisdom. Listen to the body. Systems have the ability to heal and regenerate.

Our currency: Cash, gold, crypto, and barter. (I don't love crypto but lots of smart people in our movement [do](#).)

Policy ideas: Exit the WHO. Boycott WEF companies. Repeal the Bayh-Dole Act, NCVIA Act, Patriot Act, and PREP Act. Add medical freedom to the Constitution. Prosecute the Faucistas at Nuremberg 2.0. Overhaul the NIH, FDA, CDC, EPA, USDA, FCC, DoD, and intelligence agencies. Make all publicly-funded scientific data available to the public. Ban insider trading by Congress. Support and protect organic food, farms, and farmers' markets. Break up monopolies. Cut the size of the federal government in half (or more).

Our preferred tools to create change: Ideas, love for humanity, logic & reason, common sense, art & music, and popular uprising.

What would you add, subtract, or change in each of these lists?

Blessings to the warriors. 🙏

Prayers for everyone fighting to stop the iatrogenocide. 🙏

Huzzah for those who are building the parallel society our hearts know is possible. 🙏

In the comments, please let me know what you would add, subtract, or change in each of these lists.

As always, I welcome any corrections.
