

# Dr Robert Malone: Monkeypox Is 'Psychological Warfare' Pushed by 'Evil'

By Frank Bergman • August 20, 2024 - 12:23 pm

World-renowned vaccine scientist Dr. Robert Malone has called on the public to "rise up" in the face of the "evil" that is pushing "psychological warfare" onto humanity.

Malone, the inventor of mRNA technology, warns that those behind the push to unleash monkeypox as the "next pandemic" are driving humanity to "the end of the line as we know it."

Speaking during a new interview with Alex Jones on Infowars, Malone declared that the people must "resist" the pressure from globalists to strip the public of their freedoms.

The comments from Malone come after another top official linked the Covid <sup>5</sup>pandemic to warfare.

As Slay News reported, former U.S. National Security Advisor General Michael Flynn blew the whistle just last week.

He warned the American people that COVID-19 was created as a "bioweapon" that was unleashed onto the public in order to rig the 2020 election for the Democrats.

Flynn explains how Covid was a bioweapon aimed at influencing the 2020 election to prevent President Donald Trump's re-election.

He also explains that the effort sought to alter future election systems to keep Democrats in power.

Flynn, who served as the 24th U.S. national security advisor in the Trump administration, said:

"The whole purpose of Covid was to make sure that the 2020 election was in the bag... once they did that, the real part of Covid, introduction of Covid, of the bioweapon by China, was to ensure that we could change our election system and process."

Flynn is not the first top official to warn that Covid, and the “vaccines” supposedly meant to tackle it, are bioweapons.

As Slay News reported, the Arizona Republican Party has passed a “Ban the Jab” resolution in April and officially declared Covid mRNA shots “biological and technological bioweapons.”

Meanwhile, the Idaho Republican Party and the Clackamas County GOP in Oregon have also passed the “Ban the Jab” resolution.

Additionally, celebrated virology expert Dr. David Martin warned the public in June that Covid mRNA shots are, in fact, bioweapons, and not “vaccines” as they’ve been led to believe.
